

Conference To Set W.I. Federation Date

LONDON. — A conference to set a definite date for the federation of the British West Indian islands has been called for March 13 to 18, in Port-of-Spain, Trinidad, the Colonial Office announced Tuesday.

Delegates have been named by the various island legislative assemblies and will attend from Barbados, Jamaica, Trinidad, the Leeward Islands, Tobago and the Windward Islands.

The local governments of these territories have tentatively agreed to the federation proposal, and it is hoped that the mainland territories of British Guiana and British Honduras, which have been reluctant up to now to enter into federation with the small island possessions will send observers, and may make some declaration of intention to join at a later date.

Several conferences have been held since the inaugural parley on Montego Bay in 1947, but the

BUSTAMANTE PLANS TOUR OF WEST INDIES

KINGSTON, Ja.—Mr. Alexander Bustamante, leader of the Jamaica Labor Party, is planning a British Caribbean tour "to meet old friends, make new ones and to keep promises" which he had made to visit certain of the British West Indian territories while he was Chief Minister.

The tour is being planned for May or June.

He will be accompanied by his private secretary, Miss Gladys Longbridge.

C.I.O. Board Approves Merger

WASHINGTON—The CIO executive board, with representatives of only one union vigorously dissenting on Thursday evening approved the AFL-CIO merger agreement. It calls for merger into a single labor federation before the end of the year.

Voting in opposition was the CIO Transport Workers Union. Its president, Michael Quill, shouted that CIO unions would have no protection against "raiding" or attempts to seize their already organized members.

CIO President Walter Reuther angrily disputed Quill's contention.

He said once the constitution is drawn up, it must be approved by the AFL and CIO boards, then by separate AFL and CIO conventions and finally at a joint AFL-CIO Convention.

Call Boycott Of Radio And TV In Drive For Jobs For Negroes

NEW YORK.—A drive was started last week in Harlem when meetings were held at various

centers and leaflets distributed outside many churches demanding more jobs for Negroes on radio and television.

A two-hour boycott from 8:30 to 10:30 p.m. has been called for Saturday next of all radio and television programs to "impress upon all" the determination of the committee for full integration for Negro performers, technicians and office workers.

Declaring that "Negroes were almost totally excluded from employment in the radio and television industry," spokesman for the committee said:

"In a typical New York scene on television not a single Negro is found. If television shows a subway scene there is not a single Negro in that subway. When bus drivers, doctors and policemen are portrayed, no Negroes — and no Puerto Ricans — can be seen."

Honor Guest At Birthday Party

Miss Thelma Smith was guest of honor at a birthday party Thursday night last by her godmother, Mrs. Violet Taylor de Fletcher, at her residence, 16th street East.

A beautiful birthday cake surrounded with candles corresponding to the age of the young lady, was the center of attraction and was cut by Miss Eunice Greaves, and Enrique Turner. Dancing was the principal feature.

Among those attending were: Misses Sylvia Smith, Gloria McLeod, Catalina Burnett, Tuty Fergus; Mrs. Myrtle Smith, Mrs. Sylvia Linton; Messrs. Alcides Herazo, Robert Pringle, Leonard Wedderburn, R. Ward, Mario Linton, Bartolo Renrick, J. Louis, and V. Fletcher.

Garveyism & Women Topic At U.N.I.A.

The Guachapali Division No. 244 of the U. N. I. A. will celebrate Ladies Day tonight, Sunday 27, at the Sojourners Hall, at 7:30 o'clock. Topic of the meeting will be, "Has Garveyism helped the women of the race?" Songs, musical items and addresses will include the night's program. All members, well-wishers and friends are asked to attend.

As for sales appeals on radio and television, it was noted that Negroes were among the consumers of all the products that were advertised.

Declaring that the campaign for jobs was "a big fight with an awful lot of money stacked against us," spokesman for the committee added: "It adds up to one simple thing — whether in New York or in Mississippi — it's discrimination."

NEW HEALING TWIST IN BUENOS AIRES

BUENOS AIRES, Argentina. —A new way to cure liver complaints was discovered recently when a local "healer" announced her remedy for ailments of the liver was giving "mambo" lessons at \$21.75 a treatment.

She was hauled off to jail when one of her "patients" complained, and put into a cell with another woman "healer" who had been arrested for offering to women a tea, which she claimed would cure their husbands of infidelity. The "tea," police said, was brewed from "hangman's rope."

a child.

"I realize that I have done a terrible thing, made a terrible mistake."

She added: "I don't feel sorry for myself. I feel sorry for all the people I have hurt."

On Wednesday she had told the Sheriff and newspaper reporters that she had killed her two sons by giving them big sleeping pills. She kept the bodies for a week after the attempt on her own life had failed, before dismembering them with razor blades. She wrapped the remains in several packages which she placed in a refrigerator and then had the packages buried as "spoiled venison."

Her arrest followed when she was missed for several days and four packages containing the bodies of the boys were unearthed.

Famous Cricketer Now Practicing Law In Trinidad

PORT OF SPAIN, Td.—Learie Constantine, rated among the greatest cricket all-rounders of all time, was recently admitted to practice as a barrister at law in Trinidad and Tobago.

Presenting Constantine's Prayer of Admission, Mr. Hugh Wooding, Q.C., said that constantine was known extensively not only in the British Commonwealth but throughout the world where, at one time his name was a household word. He gained the enviable distinction through the manner in which he played cricket.

Land Value Soars On Jamaica's North Side From \$112 To \$4200 p/Acre

OCHO RIOS, Ja.—Waterfront land in this thriving tourist area has soared in purchase price from 40 pounds (\$112.00) an acre seven years ago to 1,500 pounds, (\$4,200.00) an acre today.

And it is hard to find a piece of waterfront for that price a survey of the area revealed.

"The price of land both on the sea and inland is not going down", says Lord Ronald Graham of Graham Associates, a leading real estate broker on the North Coast.

Every foot of waterfront from Oracabessa, on the east to Rio Bueno on the west, according to this realtor, is "opening up" for resort development.

At Oracabessa, near the Boscobel landing strip, Mr. W. W. Bonnell, an Englishman, has bought 190 acres of the old Gibraltar property for a new Gibraltar resort development complete with beach club. An English architect, Mr. H. Hubbard-Ford, F.R.I.B.A., has already started designing Caribbean-modern homes for the many sites on the large acreage.

Police Shoot Brings Female Guard On Range For 1st Time

Last Sunday morning an interesting warm-up pistol shoot was held at the Balboa Gun Club target range by the personnel of the Canal Zone local rate guards of the Police Division.

The shoot was a prelude to the annual competitive pistol shoot to come off later in the year. The competition was nonetheless keen, as most of the top shots took part and, for the first time, a female guard participated, Myrtle Lawrence, matron from the Gatun police station.

The shoot was made possible through the courtesy of Major George Herman and Capt. R. W. Griffith, chief and assistant

\$8,000,000 Sewer Project For Outskirts Under Study

Installation of a new sewage system in the suburbs at a cost of approximately \$8,000,000 is expected to be undertaken during the term of the present administration, Pres. Ricardo Arias revealed to the press on Tuesday while being feted by Panama's newspaper syndicate at the Casa del Periodista.

According to Pres. Arias, Panama intends to install its own sewage and water supply system. Several studies have been already undertaken in this connection, and these will be coordinated, it was said.

At present experts are looking into the possibility of finding a suitable source of water so as to improve the water supply on the outskirts of Panama City, which has been increasingly inadequate.

The sewage disposal system when eventually installed will be similar to the one in service on the Canal Zone, it was indicated.

20 Graduates Get Diplomas From University Medical School

Any university in the world can justly be proud of the calibre of medical students just graduated from the University of Panama, declared Dr. Antonio Gonzalez Revilla, Dean of the Medical Faculty, in referring to the 17 Panamanians, 2 Costa Ricans, and 1 North American physicians who received the honors on Friday night 18th.

"This is a select group which has studied every day from 7:30 in the mornings to 7 o'clock in the evening," he told the press, "and it has accomplished fine work befitting a body of intelligent, sober and determined young people."

The work of this group has been associated closely with hospital practice and training. At the university itself studies have been aided by much valuable and modernized equipment, as well as fully equipped laboratories for conducting scientific research of the most advanced nature. The department is comprised of 23 professors and 27 clinical assistants.

In 1951-52 a total of 30 students started the medical course, 20 of whom have continued right to the end to earn the first set of diplomas issued in Panama for medical studies.

The University offered its first post-graduate medical course during the week of January 24 to 29. It was devoted to tuberculosis and noted physicians from the University, Gorgas Memorial and the Anti-Tuberculosis League in Panama lectured.

With the exception of the three foreign students the graduates will serve their one-year internship at the Santo Tomas Hospital, and will be expected to give a year service

to the Public Health Department in the interior of Panama.

A request has been made to secure cooperation of UNESCO to improve the modest medical library now functioning. Other improvements are being considered by the Dean.

At a cost of \$215,000 the laboratory which will be part of the science building of the University is expected to be completed soon. This is the eighth University building constructed.

Mrs. Nixon Visits School In Paraiso

(By C. Lio Walker)

The Paraiso Latin School was honored Thursday morning with a visit by Mrs. Nixon, wife of Vice-President Richard M. Nixon of the United States, who stopped at the school with her party during an official round of points of interest in the Canal Zone.

Arriving at the school at 10:45 a.m., she was welcomed by Assistant Superintendent of Schools Roger W. Collinge and Principal Ellis L. Fawcett of the Paraiso School with a detachment of International Boy and Girl Scouts of the Canal Zone under command of Pearl E. Ford, Pacific District Commissioner, forming a guard of honor.

The charming lady, smiling graciously, shook hands with every member of the scouts, forming the guard of honor and had a friendly chat with two of the boys.

Escorted to the Home Economics classroom Mrs. Nixon was formally introduced to Mrs. Lullita McFarquhar and students during which pictures were taken. After exchanging greetings the distinguished visitor said "I want to say how

very happy I am to have met you all. Good luck!" As she was about to leave student Evelyn Ford approached and presented her with a souvenir—a pair of beautifully made guest blurted: "Thank you! student Doris Worrell. Glowing with radiance, the charming guest blurted: Thank you! Thank you so very much! I shall cherish these dearly."

She and party were escorted to other classrooms and were

particularly charmed by the artistic and natural display of native products in grade II classroom in charge of Mrs. Ena Ellis. In taking her departure the entire student-body lining the passageway each waving a miniature U.S. Flag—a gesture of farewell; "Adios!" she smiling waved to the students as she passed each group, "Adios!" reechoed the children, as the charming guest and party left.

SUNDAY'S MATCHES

Panama Cigarettes vs Sparton at Gamboa

Clovelly vs Cragwell at Paraiso

Three drawn matches last Sunday closed out the first half of the Pacific (Mercurio Jewelers) Cricket league, but the standings remained intact with Cragwell CC at the top, followed by Panama Cigarettes and Sears.

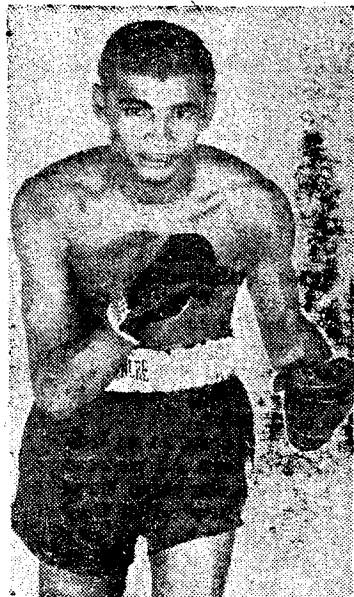

The Seymour Agency-Clovelly match was deadlock after the

play ceased for the day.

Defending champions Cragwell CC found the going difficult against Sparton C. C. at Santa Cruz as the Gamboans batting first amassed a total of 162 for five wickets before declaring its innings closed.

The Politicians batted 79 runs for five wickets. Chester Mike was the outstanding batsman of the day contributing 93 runs to the Sparton's total.

Rosado To Show Wares Monday At Colon Arena

BOBBY ROSADO

Puerto Rico's Bobby Rosado, expected in Panama Saturday night, will put on an exhibition for the benefit of the Colon Boxing Commission at 4:30 p.m. Monday at the Colon gymnasium, it was announced yesterday.

The exhibition is considered a formality required of all foreign fighters coming to the Isthmus for the first time.

He meets Joltin' Joe Brown of New Orleans next Sunday, March 6, at the Colon arena.

It will be Brown's second fight since his return to Panama in mid-January. Joltin' Joe scored a smashing knockout victory over Panama's welterweight title-holder Tito Despaigne despite a weight handicap of seven pounds.

The Puerto Rican has a record in 45 bouts, including two even decisions.

The Puerto Rican champion has a 45-21 record in 68 bouts including two even decisions. A knockout artist in his own right, he stopped 22 of his victims and has accounted for five

Cricket News

C O L O N.—Continuing to amaze local cricket fans with their brilliant performances, the Mills cricket club, cellar occupants last year—their first in league competition—made it three for three last Sunday with a resounding victory over the Wanderers C. C. Marcus Brown scored 40 out of the 83 runs tallied by the victors, but it was on the field that the game was won as the accurate bowling of Levi Warren (5 for 16), A. Franklin (3 for 22), and Vincent Small (1 for 14), dominated the opposing willow willeders, all but A. Coombs whose 22 runs were tops for his team. Wanderers C. C. was dismissed for a total of 61 runs.

At Camp Bierd, Silver City C. C. notched its first win, defeating Midland C. C. by a close —61 to 55— score. L. Bowen scored 23 and W. Atherly 9 for Silver City despite the usual excellent trundling by Roy Bacquie (5 for 11) and E. Franklin (4 for 25). Midland in turn continue to fail in batting. Their wickets fell easy victims to bowlers G. Atherly, H. Haynes and L. Jordan—the last one just six runs short of tying the score.

This Sunday the Mills and Surrey clubs, tied with three wins each, will play at Camp Bierd. At Rainbow City, Excelsior C.C. will endeavour to keep pace at the expense of the cellar dwelling Midland club.

Preacher Roe Announces Retirement

WEST PLAINS, Mo.—Elwin (Preacher) Roe, former Brooklyn twirler, has announced his retirement from baseball. The Preacher explained that he was not injured, but that his "legs are gone."

Roe, who was Brooklyn's ace in three successful National League pennant drives, said "It just reached the point that I got so tired that I hurt all over when I pitched. Sixteen years is enough for me."

The 39-year-old Preacher now the Orioles several weeks ago.

He was sold by Brooklyn to the Orioles last winter.

Self-Annihilation

A new type atomic bomb was detonated on the United States testing grounds at Nevada on Tuesday. It was a smaller than the usual A-Bomb missile and is intended to be used, either from the ground or low flying aircraft, against oncoming troops. The explosion jarred cities 135 miles away and the flash of the warhead was seen at a distance of 400 miles.

On Friday it was announced that the British Government in collaboration with the Government of Australia plan the explosion of a new type Hydrogen-bomb in the Antarctic regions sometime in March or April.

No announcement has been made by the Soviet Government, but it is believed that a nuclear explosion took place early this year somewhere in Siberia.

Nations do not make all these preparations, involving expenditures of millions of dollars, without a definite purpose in mind. It must be taken for granted then by all mankind that the larger powers are committed to the use of atomic weapons, of greater and deadlier force, in the event of the outbreak of war. Thus the stage has been set for wholesale devastation into which the nations could blunder by an error in judgment on the part of some statesman, or a trivial incident in which national pride on one side or the other has been injured.

Indeed, it has been already so declared by President Eisenhower, that the United States will use atomic weapons in Formosa if attacked by communist China. Last week Premier Winston Churchill said in the House of Commons that Britain would use nuclear weapons without asking permission of anyone in the event of attack. Lord Macmillan, Minister of Defense told the House: "The consciences of civilized nations must naturally recoil from the prospect of using weapons. Nevertheless, in the last resort, most of us must feel that determination to face the threat of physical devastation, even on the immense scale which must now be foreseen, is manifestly preferable" to subjugation.

Mao Tse, the ruler of Red China, had boasted a few weeks ago that the "United States would be wiped off the face of the earth," if American forces interfered with the threatened Communist invasion of Formosa to oust Chiang Kai Shek and his nationalist forces from the island.

What does it all sum up to? Simply, that the great powers, obsessed by misunderstandings and ill-

JINGLES

by A. Bell

No one who is capable of observation and reflective thinking should try to deny that miracles happen around us from day to day, although there are some smart individuals who take pleasure in declaring that the age of miracles is past.

The latter is held to be true solely by those who recognize as miraculous only the wondrous acts reported in Holy Writ. Those deeds had their places and served their purposes but they did not exhaust the sum total of the world's miracles. Humanity has carried on from where divinity left off and mankind has had cause to marvel at what has been wrought in the fields of science and inventions.

But it is not in those areas alone that astonishing feats have made their appearance. In individual and less conspicuous ways, great things have been done, with limited benefits and unknown sometimes to anyone beside the person who perform-

ed the miracle. I refer to those personal triumphs, those inner victories over circumstances that could overwhelm and destroy if faith and optimism did not come to the rescue.

As this column pointed out some years ago, miracles often go unrecognized because we look for them in the wrong places. We see someone beset by misfortune and trouble of various sorts and, particularly if the victim of those circumstances is considered undeserving, we wonder why a miracle of some kind does not relieve him of his troubles. Because this does not happen, we find our own faith shaken and it takes some time for us to realize that the real miracle has been that the unfortunate subject of our observations has been able to bear up manfully under the burdens which bend but do not break him.

Complete discouragement, loss of self respect, a disappearance

Miracles Still Happen Although Sometimes Not Easily Recognized

of the will to resist, a tendency to commit suicide have been some of the results of the mental and spiritual depression that follows after the devastating blows of fate. We see those things happen and we shake our heads in sorrow.

On the other hand, there are those cases in which what appeared to be certain defeat is turned into victory and the uninvited handicap is used as the foundation for a monument to courage, fortitude and patience of a very high order. Therein lies one of the modern miracles of the same quality as that performed by the scientists and inventors who earn the gratitude of their followmen for the advances they offer to modern civilization.

Undoubtedly, there is no lack of wonderful deeds. All we need do is learn to recognize them and gain what inspiration they have to offer, against the day when we may be called upon to contribute one of our own.

The Passing Review

The Pioneering Colonels

by George W. Westerman

Paama's new five million dollar race track is to be designated as Hipodrome Jose Antonio Remon. Of the several projects now under construction in the Republic which will bear the name of the late President, none is more deserving of this distinction than the new race track.

Westerman

In the first place Colonel Remon was an ardent turfite. He was essentially a sports enthusiast. While the sports of baseball and golf strongly appealed to him as a participant and spectator, horse racing was his main attraction. His principal means of diversion off the golf links was to attend the weekly programs at Juan Franco. As Chief of the nation's only armed forces and later as President of the Republic, he sustained at fever pitch his interest in the Sport of Kings — and Presidents.

In the second place it was at Juan Franco Race Track, fol-

lowing an afternoon of usual frolic over the races and entertainment with personal friends that an assassin's bullet ended his purposeful life.

To the thousands of turfites who frequent Juan Franco Race Track the spirit of Pres. Remon's presence will continue to hover around the familiar environs. In this manner they can recall constantly the close association he always maintained with the common people whom he loved so dearly, and be reminded of his zeal for creating a better country for his compatriots. Yet, the somber aspect of tragedy will never fade from their memory as they reflect upon the void caused by a life lost, while its owner was perhaps approaching the summit of a fruitfully administrative career.

We note with more than passing interest that the Hipodromo Jose Antonio Remon is being built in Campo Lindbergh. This is the field on which the "Lone Eagle" landed when he arrived in Panama in 1928 after his memorable non-stop flight to Paris the previous year.

On his 7,860 miles goodwill

mission of 16 countries in Central America, Northern, South America and the West Indies. Col. Lindbergh was pioneering in air travel, just as Col. Remon was pioneering with a new economic philosophy for this country. Although in widely different fields such as aviation and economics, it is fitting that these two pioneers should be linked together in the course of history.

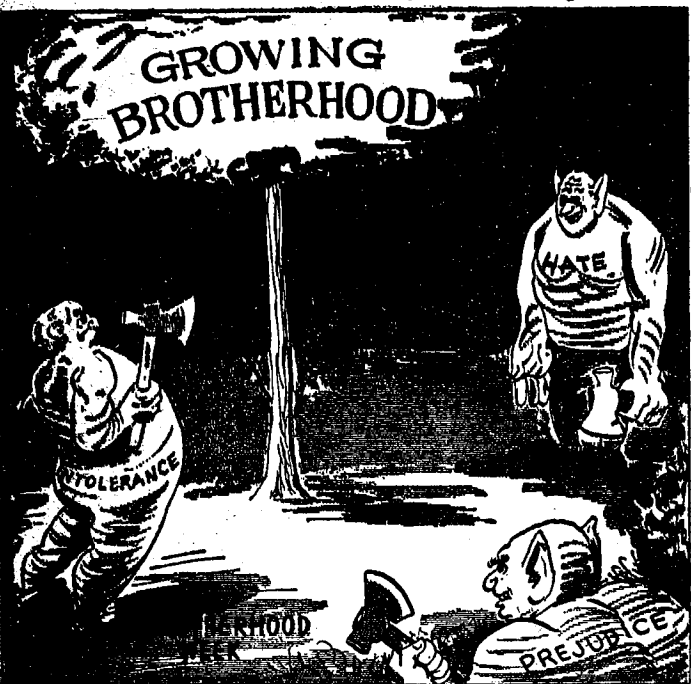

The completion of Tocumen Airport was one of the major accomplishments of the Remon Administration. One of the finest and most modern air terminals in Latin America, the Panamanian President was completing for our day and our time the symbol of the North American aviator's dream when he made his historic flight. That flight of fully 27 years ago had a two-fold purpose: the spread of goodwill and the furnishing of proof as to the feasibility of air routes through Central America and the Caribbean.

Campo Lindbergh was selected as the most appropriate site for the new race track more

Service In Honor Of R.P. President At First Baptist

COLON.—A special religious service in honor of the President of the Republic, Ricardo Arias Espinosa will be held Wednesday evening at First Isthmian Baptist Church, beginning at 8:00 p.m.

Fitting tribute will also be paid to the memory of the late President Col. Jose A. Remon.

President Arias has been invited to attend this service in which God's blessing will be asked for his administration.

Invitations have also been issued to high-ranking government officials, the clergy, press, civic leaders, and the community in general of Panama, Colon, and the Canal Zone.

The meeting which will be conducted in Spanish and English will be presided by the Pastor Rev. Sylvanus A. Scarlett.

Job Bias Costs 30 Billion Yearly

NEW YORK, N. Y. — Job discrimination "wastes ten dollars out of every \$75 paycheck on the phony luxury of indulging in our prejudices," according to Elmo Roper, nationally known public opinion analyst. This adds up to an annual sum of 30 billion dollars in lost purchasing power and skills.

In an 18 page booklet called "The High Cost of Prejudice" published last month by the National Conference of Christians and Jews, Mr. Roper also predicts that by 1980, "industrial concerns will no longer think in terms of race, religion or nationality when they hire or promote employees."

Lavish Rites Mark Nuptials Of Miss C. Tomlinson and J. Smith

St. Vincent de Paul's Roman Catholic Church was the scene of a beautiful and fashionable double ring ceremony at 8:15 a.m. Sunday morning 20th., when two wellknown members of the younger social set, Miss Carmen Tomlinson, daughter of Austin Tomlinson of No. 482, La Carrasquilla, and Mrs. Eva Barrett de Lawson of this city, and Johnathan Smith Jr., son of Mr. & Mrs. Johnathan Smith of this city were joined in holy matrimony, at a nuptial high mass.

The bride entered the sacred edifice on the arms of her father. She was beautifully attired in a gown of chantilly lace embroidered with pearls, sequins and rhinestones; the busseled skirt, embroidered in satin and white sequins, was the handiwork of Miss Hilda Lopez of Via Airport, while the gown was made by Mrs. Avis de Binnom, of this city. She wore a fingertip veil held in place by a rhinestone and sequins white cap, and carried a bouquet of lily of the valley.

The chief and only attendant was her sister, Miss Tomlinson, who appeared lovely in a ballerina length dress of lace and organdy, trimmed with pink flowers with matching pearls, rhinestones and ribbons. As head dress she wore a feathered pink hat with illusion tulle, and carried a nosegay of pink carnations. Bestman was Samuel Percival Mason, while little Yvonne Lawrence and Trudy Tomlinson were flower girls. César Comrie was page boy.

After the ceremony, the party motored to the home of Mr. & Mrs. Percival Mason, No. 23-36 23rd street, where a sumptuous wedding breakfast was served, with a large group in attendance. Centerpiece was a beautiful wedding cake, decorated by Miss Dolores Patterson.

Those attending were Mesdames: Catalina Orville, Ana Cragwell, Olga Tomlinson, Joyce

Headley, Iris Archer, Bernice Barker, Nieves Salazar, Cecilia Lawrence, Thelma Rodriguez de Cota, Centura Frederick, Vilma Arthur de Comrie, Verónica López, Anita Sheriff, Ambrosine Regist, Theodora Levene, Verona Kellman; Misses Esmilda McCallister, Beryl Redwood, Ethelyn Walcott, Juliana Mercedes, Margarita Morrell, Priscilla McKie, Claudia Payne, Thelma Benskin, Josefina Agard, Paulina Thomas, Veronica Curney, Linda Lawson, Rosa Elena Guerrero, Agatha Wilson, Enid Hall, Violet Smith, Pearl Simon, Isoline Walcott, Sylvia Barrett, Hortensia Patterson, Ruth Trotman, Norma Chandler, Gloria Gibbs, Jeannette Tomlinson, Hilda Wallace, Leonora Smith, Daisy Husband; Messrs. John Campbell, Leroy Curney, Victor McFarlane, Alfredo Smith, Bibiano Gibbs, Albert, Henry and Ricardo Lawson, Ramón Martín, César Comrie and brother, Walter Gooden, Oscar Ceville and John Hoyte; Mr. & Mrs. Allan McPhail, Mr. & Mrs. Tomás Samuels, Mr. & Mrs. Victor Barrett, Mr. & Mrs. Victor Binnom, Mr. & Mrs. Whitfield Johnson and Mr. & Mrs. Percival Fredericks.

than a decade ago. It is not without significance that the project is nearing a reality today largely through the spark and positive action of Panama's sporting No. 1 citizen. Consequently, when thousands of local and visiting turfites decide to attend a racing program after the next several months, they will be visiting not only the Hippodromo Remon but also Campo Lindbergh.

This is one way in which Panama preserves the sacred memory of the "Pioneering Colonels."

Miss Constance Felix of New York who has been visiting the Isthmus for the past three weeks, left by plane yesterday via Jamaica, B. W. I. where she expects to spend a short period prior to returning to New York.

At the airport to see Miss Felix off were her friends the Misses Doris McCatty and Olive Edwards who arrived here with her, and who will remain on the Isthmus a little longer.

Miss Felix speaks in glowing terms of the wonderful treatment afforded her, and the many beautiful places of interest she visited coupled with a legion of new friends made, whom she hopes to see again either here or in the U. S. A.

Mrs. Pearl Simmons de DePass of the Atlantic side recently underwent a successful operation at the San Fernando Clinic, and is getting along nicely. Mrs. DePass occupies Room 46 where she may be visited.

Dudley DePass of the Atlantic side has been in the Capital for several days due to the illness of his wife at the San Fernando Clinic.

Also visiting her sister during her illness is Miss Dolores Simmons of the Atlantic side.

William Moody, former Colon boy who has been plying

the high seas for a number of years, was fortunate enough to drop off on the Isthmus for several days, while in port awaiting a transfer of ships. During the period, Mr. Moody visited his relatives on the Atlantic side and later spent a few days in the Capital with friends prior to resuming his duties abroad.

While in Colon, a large party was thrown in honor of the "Skipper" by colleagues of the Navy and other friends which was heartily enjoyed.

Miss Jane Todd of the Capital spent four days on the Atlantic side with friends, returning home last night.

Born to Mr. and Mrs. Vincent Ellis, their first addition to the family, a baby boy at Gorgas Hospital.

Both Mom and infant are getting along fine, while daddy is still handing out the cigars smilingly.

Mrs. Frederico Murray, recently underwent a successful operation at Gorgas Hospital, and may now be visited on Bed 3 of Ward 23 where she is improving. Mrs. Murray is the wife of Frederico Murray of the Star and Herald Co.

Percy Toppin treked it up Gorgas Hill Tuesday last to

Mrs. Cole Agrees With Clayton Powell On In-Law Troubles As Marriage Wrecker

CHICAGO, Illinois. — One of the surest ways for young couples to wreck a new marriage is for them to live with in-laws, says Congressman Adam Clayton Powell in the March issue of TAN. Sharing his viewpoint is Maria Cole, wife of Nat "King" Cole, who told TAN, "My own in-laws are just wonderful people and we get along beautifully but I would not want to live with them, just as my husband would not want to live with mine."

Congressman Powell, also pastor of the Abyssinian Baptist Church in Harlem, and Mrs. Cole are not alone in their views. A survey recently conducted at Cornell University, says TAN, revealed that the main cause of argument, next to money, is disagreement involving "his" or "her" mother. It was found after questioning 364 couples that such spat-

cause more strife than either jealousy or sex.

Dr. John L. Thomas, of the Catholic University sociology department studied 7,000 broken marriages and found that mothers-in-law were the greatest single cause of wrecked marriages during the couple's first year together. If the pair can make it together for five years with the in-law conflict, neither mother-in-law (his not hers) can split them, no matter how meddlesome she is, TAN learned.

Reverend Powell has drawn up "Ten Commandments for Happy Marriage" and lists as No. 5 — "Live by yourselves."

"I have never married a couple," the congressman-minister told JET, "that I have not in my final prayer said, 'Henceforth, dear Lord, let them live unto themselves.'"

Stick To Names Of Girls For Tropical Hurricanes

WASHINGTON.—The Weather Bureau, which is not always right, is proving that it is at least brave.

It announced last week it was brushing aside angry protests from the fair ones and will continue to use girls' names to identify hurricanes. The Bureau had been under pressure to change the storm identification system. Some women whose names were used sent in bristling protests. There also was criticism that the system

smacked of flippancy.

Standing its ground the Bureau said it could find no other system that had the same advantages of brevity, ease of pronunciation and recognition.

The Bureau decided on these names in order, if and when they come, for the 1955 tropical storms in the Atlantic, the Caribbean and the Gulf of Mexico.

Alice, Brenda, Connie, Diane, Edith, Flora, Gladys, Hilda, Ione, Janet, Katie, Linda, Martha, Nelly, Orva, Peggy, Queena, Rosa, Stella, Trudy, Ursa, Wilma, Xenia, Yvonne and Zelda.

Alice, a 1954 name, is the only repeater.

Save Money On Children's Wear

Clothing youngsters on a slender budget is something of a trick many homemakers have discovered, but with some thought it can be done.

Doing the sewing yourself is one item, but there are others which experienced mothers have found.

GROWING CLOTHES

Clothing specialists are now designing children's apparel which will actually "grow with the child." You'll find that clothing of this type costs a bit more than one size, but then the materials are durable and construction is excellent.

This new clothing expands simply by your pulling out a seam or thread at expendent places, and behold! you have another size.

You can incorporate these ideas into your sewing, too, by making a garment larger than your pattern. Hems, pants legs and waists can easily be made larger and tucked in cleverly until the material is needed.

SELECTING STYLES

Styles you select in children's clothing has a lot to do with how long the child can wear them especially if he or she is growing rapidly.

In dresses select those with an indefinite waistline and roomy sleeves. These two features alone make a dress "growable."

You can add extra length to most dresses by ripping out the stitching at the waistline and setting in a belt, wide or nar-

SEES CANCER ILLS AS CHIEF CAUSE OF DEATH IN CHILDREN

CLEVELAND, Ohio. — More children die from cancer than from any other cause except accidents, Dr. C. Everett Koop of Philadelphia said in an address here last week.

Dr. Koop, associate professor of surgery at the University of Pennsylvania, spoke at a convention session of the American College of Surgeons.

He said half the cases of cancer in children are of the central nervous system or eye, or in the circulatory system as leukemia and lymphoma.

In the remaining half of cancer incidence, abdominal cancer is the chief killer of children, Dr. Koop said.

He urged pediatricians to be more wary of abdominal cancer in routine, well-baby examinations. Dr. Koop said pediatricians often were not alert to the disease. He declared:

row, as is needed.

BLOUSES AND SHIRTS

If you make or buy button-on blouses and shirts, select those which are long. This will permit lengthening by lowering the buttons.

Front and back yokes can be replaced on many shirts, blouses and dresses with a contrasting fabric. You may find it essential to cut a larger armhole, and then add contrasting sleeves to the armseye.

Too short blouses which are still roomy enough through the shoulders might be limited to wearing with jumpers and pinafores rather than combining with skirts in which their brevity is noticeable.

"In a conscientious program of abdominal examinations in well-baby clinics, a doctor will not let abdominal tumors slip through his fingers."

Dr. Koop asserted that many children's doctors, suspecting cancer, often took too much time before beginning treatment. He added:

"We have to consider a child with a tumor as critical."

1955 Outlook For Us All

by P. I. H. NAYLOR
(World Famous Astrologer)

THIS WEEK FOR YOU

CAPRICORN
(Dec. 21 - Jan. 19)
The friends you have made recently will be invaluable to you. This week you realize just how helpful these link-ups can be. Money comes in an unexpected fashion.

AQUARIUS
(Jan. 20 - Feb. 18)
Pace of life slows down somewhat; you find time to relax. Readjustments in your personal life should have proved more congenial than you had anticipated. Now the way is clear to a new and rewarding association.

PISCES
(Feb. 19 - Mar. 20)
You get a windfall or pick a winner mid-week. Until then keep your money in your pocket plan carefully. On no account argue about money or family commitments.

ARIES
(Mar. 21 - Apr. 20)
There is someone in your circle who needs your help and possibly your money. Before you make rash promises, be quite sure what burdens you are assuming. There is some danger that you would be left with unsuspected and heavy problems.

TAURUS
(Apr. 21 - May 20)
Your working future is very promising but will entail a good deal of hard work. In the midst of your efforts don't forget to build up what good will you can. Keep your correspondence up to date; spend money on travel and hospitality.

GEMINI
(May 21 - June 20)
Something for which you have been angling in 1954 is almost within your grasp. This week you could secure money for work that you will do in the middle of this year. Problem of the moment is to keep your associates and your fellow workers on good terms with each other.

CANCER
(Jun. 21 - Jul. 20)
However much you value your old friends, keep yourself open to new influences this week. Associations made now will have a financial implication as well as a personal one. A good week for new contracts and travel.

LEO
(Jul. 21 - Aug. 21)
Don't worry if family tantrums or upsets hold you up in next few days. Continue of be downright and straight forward in all you do. It is important to keep trouble-makers in their place, the atmosphere clear of intrigue.

VIRGO
(Aug. 22 - Sep. 22)
A dilemma awaits you in next few days. On the one hand you have friendly prejudice and influences, on the other a new and inviting proposition. Better follow up the recent offer; it will lead to more than you might expect.

LIBRA
(Sep. 23 - Oct. 23)
Whatever the effort, don't let new projects languish. Something to which you set your hand in late 1954 will bring in money within a short time now. Remember that you have important friends and make use of them.

SCORPIO
(Oct. 24 - Nov. 22)
Don't place too much faith in lawyers, officials or would-be helpful friends. Your own good judgment and intuition are the best guides for you at the moment. Take the initiative without more delay.

SAGITTARIUS
(Nov. 23 - Dec. 20)
There is some danger that an important scheme hangs fire for a time. If you need help or money, the family will probably provide it. If an employer, be firm with staff; if employed, keep clear of troublesome fellow workers.

SUNDAY, FEBRUARY 27th: FOR MOST OF US: The older generation are your best allies today. Youngsters will be irritating, possibly in trouble. Make a break in your usual routine if you can.

FOR LUCK TODAY WEAR OR USE: Celestial blue, 6, Turquoise.

BIRTHDAY FORECAST: For Those Whose Birthday Falls On Sunday February 27th: Life in 1955 may well prove to be a series of disconnected episodes. You will make certain changes, try out one experiment after another but find it difficult to be consistent in anything you do. Your own state of mind will be a restless one and discontent likely to attend those for whom you are responsible or for whom you must work. So that it is important to get down to brass tacks early in the year and make what clear-cut plans you can. If you do this you will probably realize that changes are

necessary before the end of June. You may not like the idea of making them but it is imperative to go ahead if you hope for a good income and reasonable success in the remainder of the year. Having made certain readjustments, be content. The latter half of 1955 will not be favorable for new schemes or for much moving about. Although your environment at the time may not be entirely congenial, it will be suitable for money-making and better than anything else you might get. Don't leave important matters to other people. If you are responsible for subordinates or juniors, keep your wits about you.

If you have youngsters in the family, watch what they are doing and be as patient as possible with their vagaries and temperaments. If you are single and your plans for marriage already made, go ahead. If still unsettled, better be content to remain so for a while longer.

Review Progress At Local Meeting Of Insurance Plan

Officers of the United Societies Association met in Colon Wednesday for a review of the progress being made by the Association in connection with its group insurance efforts, and also for the purpose of summoning a meeting of the Board of Directors at an early date. At its meeting the Board will, among other things, pass on the date and place of the next general assembly of delegates.

Although no details are as yet available, it is learned reliably that the group life insurance which the Association sponsors will go into effect about July 1st of this year.

Reception Is Up In The Air

Do you want to find out how long it will take this performing circus clown's picture to appear on the television set? Choose a path from the bottom of the drawing, and see if you can find the one that leads to the TV set. Do not cross lines. Time yourself to see how long it takes.

Say, Hay!

A farmer had 4 3/7 haystacks in one field and 4 1/3 haystacks in another. He put them all together. How many did he have then?
Answer: One haystack.

A STUNT FOR A PARTY

Try this stunt at your next party: Have someone stack high a number of objects such as a footstool, telephone book, cake box, etc., and announce to the group that you can take off your shoes and jump over them. Then proceed to take off your shoes and jump over them—the shoes, of course.

Nixon Acclaimed

to our friends, the people of the Republic of Panama, and the government of Panama, the warm good wishes of the President of the United States, President Eisenhower, and of the American people."

He spoke over the radio to the warm welcome of Foreign Minister Octavio Fabrega, and declared in Spanish: "I feel that I am in my own house."

Driven to the Hotel Panama, he began the round of official and social engagements. A brilliant reception was given by Foreign Minister Fabrega and a state dinner by President Ricardo Arias and Mrs. Arias.

Chiricanos gave the American VP the most rousing reception he received on Panamanian soil. He, himself, set the tone for the warm reception when, on arriving at David, Thursday morning he told the Governor of the Province that "Chiriqui is to Panama what Texas is to the United States."

"This is a region of great riches, plenty of resources, and fine people, I am told. Although I can't speak to you in your own language, I have brought you a Texan to speak to you in Spanish, so that he can convey to you the truest sentiments of friendship we in the United States feel for the people of Panama."

With this he introduced Henry Holland, the tall Texan Under-Secretary, who has been acting as interpreter on this tour of Latin American countries.

In Boquete, belles of the town scattered rose petals in the path of the Nixon party. With the Chiricanos' acclamation ringing in his ears, he did not resist the temptation to share a native dance with one of the young ladies dressed in gorgeously embroidered polleras.

This event was followed by a sumptuous reception at the Panamonte Hotel where the Vice President received, among other tributes, a trophy in the form of a tiger skin from the wife of a Chiriqui farmer.

At 5:00 in the afternoon he inaugurated the new USIS center on Central Avenue and attended a reception at the Golf Club tendered by the American Society.

The guest of honor at the National Assembly he declared in his address in response to the speech of welcome by Deputy Victor Navas, "I am confident that ratification of the treaty by our legislative bodies will usher in an era of friendship and prosperity between our two countries unequalled in past history."

Escorted by Governor Seybold, Vice-President Nixon made a whistle-top trip on the Panama Railroad and a short trip through the Culebra Cut.

He assured Canal workers that "We are proud of the record you have made here" and asked American citizens to remember that the ideas other people form of Americans will be influenced by those they know. "If they don't like you," he said, "you'll create ill-will."

He was presented to veteran canal workers and civic council leaders including Jefferson Joseph, William Jump, Ellis Fawcett, H.D. Perkins, Leon Headley, W. A. Shan, Glanville Davis and others.

COLON VISIT

The United States Vice-president Richard M. Nixon, walking arm-in-arm with Colon's dapper Mayor José D. Bazan, entered the Municipal Council hall to the rousing ovation of a

large crowd.

Address of welcome on behalf of the Municipal Council was read.

Following a brief address of welcome, Mayor Bazan presented on behalf of the Municipality of Colon, the traditional Key to the City.

Presented to the U. S. Vice President were a delegation of Local 900, CIO, Retired Canal Zone Workers' Association, Municipal Councilmen, the Clergy and the Proletariat.

Changes Bring Transfer of Barbers

With the gradual depopulation of the La Boca townsite and closing of the barber shop there, it is reported that Baltimore Brown, popular barber at the Service Center here, who is a junior barber is called upon to relinquish the local shop to a senior barber from La Boca. As a result of a changing world, "Balti", as he is popularly called, who has been giving very good services to his clientele in the community and is of an

affable and genial disposition, must seek other fields to cater his profession.

He has intimated that in future he will be located at Dunn's Barber Shop at 24th St., Guachapali, Panama City.
