New System To Cost \$500,000

Re-Issue Of "Cedulas" Planned By Government

The complete cancellation of all "cedulas", official cards of identity, now in the hands of natives

and foreigners and the issue of a new system of personal identification was indicated in the announcement on Friday from reliable, but unofficial sources.

It is said that the new system of identification will be similar to that used in the City of Chicago, Illinois, and that the cost has been estimated at over \$500,000.

The first steps towards the setting up of a new "cedula" system was said to have been taken by the late President Remon, and the decision to proceed with the task was taken (Continued on Page 10)

Waiters Protest

Assemblymen Hear Complaint Vs Atlas Garden

Waiters and kitchen helpers of the Rancho Garden took their grievances to certain Deputies of the National Assembly this week, claiming that the National Labor Code had been violated by their employers in various ways.

The complainants cited several cases where they claim, the management had refused to comply with provisions of the Code, and had imposed on the workers penalties or sanctions which have not been authorized by existing laws and regulations.

They stated that about four or five of them who have worked from three to seven years are still carried as "extras." This practice has been followed so as not to place them on the regular payroll, they contended,

Civic Congress Called To Discuss Need For Acqueduct

A call for a Second Congress of Civic Societies of the outskirts to be held next month in San Francisco de la Caleta, was issued last week to consider the many serious problems confronting the communities in those areas of the capital.

The principal item it is announced is to encourage the Executive Power to speed up preparations for the construction of the sewerage system in the outskirts as one of the problems of greatest urgency with which the residents are confronted at present.

It has been explained that the lack of an adequate disposal system in the outskirts affect over 70,000 residents of that section of the city, a number which is rising constantly fol-

New Title Urged For Princess As Romance Talk Revives

Capt. Peter Townsend Princess Margaret

LONDON.—Royal circles still maintain a cold reserve over the speculation rampant in the press since the return from her Caribbean tour of Princess Margaret over the possibility of a formal announcement this year of her engagement to the divorced 40-year old Captain Peter Townsend.

Up to Friday, badgered by newsmen, Captain Townsend now an air attache in Belgium, was quoted as saying only:

"There can be nothing said until the time is ready or somebody else does something."

He neither denied nor admitted the report of his alleged romance with the sister of the Queen.

Well informed circles said earlier that the strong-willed Princess, may like her uncle Edward VII, now the Duke of Windsor, who relinquished the throne in 1936 for the "woman I love," may surrender her royal prerogatives for love of the handsome commoner.

Living Conditions Of Workers In Bocas Area Called "Lamentable"

The Minister of Labor and Public Health has been asked to investigate alleged unfavorable work conditions affecting employees of the United Fruit Company in Bocas del Toro and Almirante.

On March 7 Minister Arrocha Graell was sent a letter by one who signed himself "A Sympathizer," copy of which has been forwarded the TRIBUNE for publication.

A translation of the letter of complaint follows:

Increase In "V D" Rate Stirs Alarm In C.Z. Military Circles

Military circles on the Canal Zone were reportedly alarmed at the sudden increase in V. D. cases recorded during the past six weeks.

No less than 50 "contacts" were registered at various hospitals on the Zone among Armed Forces personnel which indicated that health security measures have become somewhat lax, it was said.

The trend has been brought to the attention of health authorities in Panama who are asked to take some remedial actions without delay.

Beginning last Sunday night police raids were carried out in the city and scores of women found in bars and brothels were arrested. Some were under 18, and twelve of those detained were given sentences of 90 days.

The National Guard has also launched a campaign against suspected "maleantes" pickpockets and weed smokers.

"Third Party" Hinted In Remon Slaying As Miro Now Says — "I Am Innocent"

From the confines of his cell in the Carcel Modelo where he is awaiting trial for the slaying of Pres. Jose A. Remon, Attorney Ruben O. Miro has been writing to various persons declaring his innocence of the crime to which it is said he confessed committing on Jan. 2 at Juan Franco Race Track.

Rumors about "sensational revelations" to be made by Miro had circulated for a long time. The first strategy was to have been an explosion of the revela-

Treaty Impact?

Seybold Up For Budget Talks In Wash.

Gov. John S. Seybold is due to appear before the Senate Appropriations Committee sometime within the next few days after his arrival in Washington.

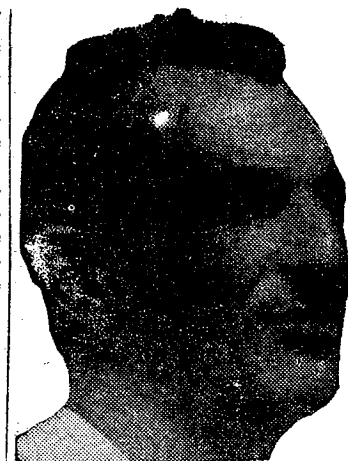

It is only known that the Governor will justify the budget for Panama Canal operations for the fiscal year 1956 which begins next July. This budget was presented to Pres. Eisenhower in January.

While in Washington it is most probable that the Governor may be called upon to discuss with Congressional Committee the impact which the new US-Panama Treaty is like- (Continued On Page 11)

NAIROBI, Kenya.—Following the slaying of a Mau Mau "general", Kiburu Muchiri, who was killed during the week-end when the police and Kikuyu guards wiped out the remnants of a terrorist band in the Fort Hall district, the All Saints Cathedral at Nairobi was forcibly entered by Mau Mau terrorists Sunday night and desecrated.

New R. P. Ambassador To U. S. Receives C. Z. Labor Delegation

Prior to leaving for Washington to take up his new post as Ambassador of this Republic, Dr. J. J. Vallarino received a delegation from Local 907, the Armed Forces Chapter of the C. I. O.

The labor representatives discussed with the Ambassador issues arising out of the newly signed Remon-Eisenhower Treaty. They urged him to look into every possible detail to see that workers on the Canal Zone receive all to which they may be entitled if and when the U. S. Congress ratifies the pact.

Ambassador Vallarino said he was quite familiar with Washington and Congressional activities there, having already served in a similar capacity some years ago. He said he had on more than one occasion in the past been called upon to make representation on behalf

of the Canal Zone workers. This was a service he performed with much gusto then, he admitted, and he may be counted on to do the same in the future, was his assurance.

Ambassador Vallarino told the TRIBUNE that the new treaty offered many benefits to the Canal Zone workers. "We have achieved much in many ways from our recent negotiations with the United States. When the people realize the extent of our gains they will appreciate the patriotic fight the Panamanian negotiations put up against tremendous odds," he declared.

The Ambassador further stated "Panamanian diplomacy had triumph," and he was sure that the U. S. Congress would approve the new treaty and complete "the triumph of democracy."

which took place first at the Carcel Modelo and then at the re-enactment of the crime. These incidents were to establish the irregularities allegedly committed by the investigating authorities.

In an extraordinary session called to discuss the startling document, the Bar Association decided to turn it over to the National Assembly for action. This has been done and the contents of the memorandum are being carefully studied by the Assembly's Special Commission which has handled the investigation.

The noon tabloid "La Hora" published Friday a photostatic copy of a hand-written letter from Miro, delivered to their office by his brother Efrain Miro, which, is one of the sev-

eral said to have been distributed, in which the alleged slayer declares:

"On the morning of the 12th of January, for weighty reasons, I accepted total and sole responsibility for the occurrence at the National Hippodrome ten days before. In the actuality these reasons cease to exist.

"With my conscience at peace I patiently await the coming of the day of my trial in the assurance that I will prove my innocence."

(sgd.) RUBEN O. MIRO

A new sensational development was the statement attributed to Dr. Jose de la Vega, private prosecutor in the trial of Guizado, published in the Cuban weekly magazine "Bohemia."

Dr. de la Vega was quoted as voicing the opinion that "Third Parties" were involved in the machine-gunning of President Remon, and that the assassination was not motivated by politics.

The magazine quoted him as saying that the crime was motivated by certain shady business deals which President Remon refused to permit and "as a consequence he was in the way of certain big businessmen who did not hesitate to eliminate him."

Despite this announcement Prosecuting Attorney Francisco Alvarado declared that no new arrests were being planned and that the investigators were considering the normal questioning of several persons whose testimony may serve to clarify certain issues, and studying the appeals for release of several of those detained in the course of the investigations.

On Friday morning ex-President Jose Ramon Guizado, charged as the instigator, was formally notified to prepare for his trial before the National Assembly on Monday 21st. He accepted the notification without comment.

Southern Politicians Challenged To Put School Question To People

ATLANTA, Georgia.—But for the opposition of self-seeking or cowardly politicians who hold office by fanning racial prejudices and profit from the "white supremacy" slogan, there are many southern communities that would desegregate their public schools at once," declared Roy Wilkins, administrator of the National Association for the Advancement of Colored People, at the closing business session of the third annual Southeastern Conference of the N. A. A. C. P. About 200 delegates from seven southern states attended the three-day meeting.

"There are many southerners who favor public school desegregation," Mr. Wilkins said, "but the strident voices of the white-supremacy politicians drown out the more responsible voices.

"The N. A. A. C. P. knows of two medium-size southern cities

that were willing to desegregate schools last September, but were restrained by craven-hearted state authorities, with politics shaping the decisions.

"The pro-segregationists are always saying this matter must be handled in terms of community patterns. All right, we dare them to put desegregation on a people-to-people basis in each school district.

"The American Negro has full confidence that in the last analysis the neighbor down the street will always comply with the law of the land and that which is morally correct. Give Main Street a chance to do the right thing and the people will triumph over every obstacle.

"We now dare the state-level political manipulators to give local communities a free rein in planning public school desegregation."

Clemency Asked For Youth Twice Given Death Penalty

TALLAHASSEE, Florida. — A plea to save the life of Walter Lee Irvin, twice convicted and sentenced to death for rape, a crime he swore he never committed, was made last week to the Florida Board of Pardons by Paul Perkins, Florida attorney, who along with NAACP Legal Defense attorneys have fought for the past six years to save Irvin from the electric chair. The final plea was made in a petition for clemency which asked the Florida Board of Pardons, headed by the Governor, to commute Irvin's death sentence to life imprisonment.

On January 10, the United States Supreme Court turned down a request of the lawyers to review the case after it had granted a stay to hear further argument based on the fact that Irvin was not given a fair and impartial trial. It was the third time Irvin's case was taken to the United States Supreme Court.

The refusal on the part of the Supreme Court to review the case allowed death in the electric chair to close in on the last surviving defendant in the now famous Groveland Case.

Irvin and three other Negro youths were accused and convicted of raping a white farm wife on July 6, 1949. One youth was shot to death before he ever reached the courtroom, another was killed on a lonely road by the sheriff after the United States Supreme Court had ordered a new trial, and the fourth youth is now serving life imprisonment on the Florida chain gang.

Irvin, too, was shot by the sheriff on that lonely road, but lived to tell the story.

Ancient Rituals To Mark New Year Of Rosicrucians

COLON. — The re-enactment of a ceremony that began in ancient Egypt over forty centuries ago will be the highlight of a local Rosicrucian convclave to be held here on March 18 at 8 p.m.

According to Shadrack A. Meikle, master of the Rosicrucians Colon Pronao, the ancient Egyptians, from the time of 'Memphis to the Ptolemaic Period, began their New Year on or about the time of the vernal equinox when the sun, on its journey, crosses the celestial equator and enters the zodiacal sign of Aries, which always occurs on or about March 21. This was considered the beginning of the New Year because Spring is symbolic of new life—emphasized by the reawakening of Nature from the dormant period of winter, the bursting forth of blossoms, and the growth of living things.

The occasion of the New Year is celebrated, states Mr. Meikle, by a symbolic feast in which the participants partake of simple foods corresponding to certain basic elements of nature, such as: salt, corn, and unfermented grape juice.

As the Rosicrucian Order, AMORC, a more religious, philosophical fraternity, maintains that its traditional origin occurred during the reign of Amenhotep IV, in 1530 B. C., the order commemorates this ancient New Year.

March 21 is also the beginning of the fiscal period of all Rosicrucian lodges, chapters, and Pronaoi throughout the world; and the date is marked by the installation of new ritualistic and administrative officers.

New officers of the local Rosicrucian organization who will be installed are: E. Haughton, master; J. Downer, secretary; and E. Ruiz, guardian.

The ceremony and convclave is to be held at the Effort Lodge Hall, 3037 Justo Arosemena and 4th Street. Many visiting members from the surrounding districts are expected to be in attendance.

Shop Squad Cops Softball Pennant

A timely two run homer by Perry in the eighth inning of an overtime contest gave the Shops gang a 7 to 5 victory to edge out the School boys for the championship of the Santa Cruz Community Softball league last Saturday at Santa Cruz.

It was a come-from-behind triumph for the Shop gang who trailed 5 to 0 up to the third as Pee Wee Richie held them in check with his hitless offerings.

The Shopmen's power broke loose in the fourth for four runs and one more in the seventh inning deadlock the score 5 to 5.

At this stage, the School Boys, tied with the Shops 4 and 1 in the standings for the second half league honors, agreed to play an extra inning, although they had the option of playing another full game some other

Tony Armentero Due Monday For Bout With Joe Brown

Tesis Faced With Choice Of Fighting Or Being Suspended

Whether Pedro Tesis, featherweight champion, will be suspended depends on his own decision when the Colon Boxing Commission meets next Monday to further discuss his case involving a breach of contract.

Tesis got into a dispute with Promoter Luis Craig, his manager Jose Maineri and the Commission, following his refusal to recognize a contract signed between his manager and the promoter calling for a bout with Isidro Martinez.

The fight was originally slated for March 20, but Tesis told the Commission he had another commitment on that date for a fight with Tony Leon in Venezuela. The latter engagement has since been cancelled.

It was reported that if Tesis agree to meet Martinez, the Colon solons will take no suspension action against him, and the fight will be rescheduled for an April date.

Tony Armenteros, Cuban welterweight, and his manager Manuel Castro cabled yesterday that they will arrive in Panama Monday at 9:15 a.m. via Braniff airways from Havana.

The Cuban boxer is tentatively booked to fight Joltin Joe Brown next Sunday, March 20, in a ten at the Colon arena.

He will give an exhibition at 4:30 Tuesday afternoon at the Colon arena when officials of the Colon Boxing Commission will be on hand to see him display his wares, a formality before giving the visitor a clean bill of health.

Armenteros is the same boxer who decided the Jolter last December in a ten-round go in Miami, Florida.

New Group Heads Amateur Boxing

The Commission announced the opening of the amateur boxing season April 21. It was also announced that this year's program will include bouts in

Fleischer Quoted Lower Cost On Transfer Of Brown's Body

By JUAN W. COPELAND

Approximately two years ago, The Panama and Colon Boxing Commissions agreed to bring back the remains of Brown to Panama. The writer of this article was called one night in Panama at the "Macarena Bull Ring" by the Governor and Alcalde of Panama City, asking me to negotiate with Nat Fleischer, Editor of The Ring bringing back to Panama the remains of our Al Brown, the only world champion produced by our country. This was done. Nat Fleischer contacted a New York undertaker to do the job and sent an estimate (itemized) starting with the exhuming of the body buried at the Resurrection Cemetery in New York, to Tocumen, in a fire sealed iron casket, for a total of \$743.

evening at the Monaco Garden in Colon. Therefore, the Colon donation was more than half of the amount needed to do the job. What has happened to this fund, I DO NOT KNOW, NOR DO I CARE.

The surprising part about all this, is that I read a few days ago, that the Panama Boxing Commission had commissioned Don Quiqui Cambra to make negotiations for the bringing back of Brown's body from the big city.

Why they had to do this, is a Chinese Puzzle. Do they think for one minute that Cambra can do business along those lines in New York City any better than Nat Fleischer? The proof came quickly. Mr. Fleischer's estimate was \$743 to Tocumen. Mr. Cambra's estimate is \$1,125 on a New York dock. It's a fact that when Nat Fleischer calls an undertaker to send a bover's body to his homeland, it takes a quite different angle, and meaning, from

(Continued on Page 20)

This estimate was delivered to the Panama Boxing Commission and they started to work together with the Colon Commission on the matter. If I am not mistaken, the Colon Municipality voted \$350 towards this fund along with \$62 more that was collected from sympathizers at a meeting held one Sunday

FyL Undefeated On Bocas Tour

The Fuerza y Luz, amateur baseball champions, returned from Bocas del Toro last week, and in two games played, won one and tied the other.

The Powermen won the first game of the pair 5 to 3 from the Bocastorenos and in the second contest, the hometowners tied the FyL squad in the last inning when the game was called with the score 4-4.

Sparton Hands Cragwell First Season Setback

The Cragwell cricket club's aspirations were given a rude jolt when the visiting Sparton C. C. of Gamboa handed them their first setback of the season in a well contested match played at the Paraiso playground on Sunday.

The defending champions were the first to bat and they were off to a disastrous start as the first 7 wickets fell for 54 runs, but thanks to a fine 8th wicket partnership between Rupert Scott and the veteran John "Bandy" Gittens the score was taken to 98 runs, and the remaining batsmen were able to add 16 runs as the entire side was dismissed for 114 runs.

The Gamboans lost the first wicket when the score stood at 17 runs, then Earl Holder joined the fast scoring Chester Mike and this pair proceeded to attack the bowling of the Cragwell club in a relentless manner and when a separation was finally effected the score had reached a total of 95 runs. Three more wickets were lost before the score was finally passed.

Panama Cig. Vs. Seymour Agency

In contrast to the very fine and cleanly contested match played at the Paraiso playground, the Panama Cigarettes-Seymour Agency match played at La Boca was marred by the unsportsmanlike attitude adopted by one player of the visiting smokers club

SURREY, EXCELSIOR PLAY DRAWN MATCH 1

COLON.—The Surrey-Excelsior cricket match ended in a draw last Sunday at the Rainbow City oval as the league leading Surrey club completed the half season with 4 wins and one draw for a total of 22½ points.

Batting first on a hard wicket Excelsior scored their runs as follows: 1 for 12, 2 for 21, for 26, 4 for 34, 5 for 37, 6 for 69, 7 for 73, 8 for 83, 9 for 92, and all for 110. Highlighting this inning was the heavy hitting of A. Hamlin (37 runs), veteran J. Groves (23), Geo. Smith (14), and A. Campbell (11).

On the fielding side, a brilliant one-handed catch in the outfield by "Bobby" Drakes, and a rifle-shot return taken by bowler C. DeSouza off the bat of K. Griffith, were the standout plays.

Successful bowlers were DeSouza — 4 for 45, E. Franklin — 3 for 25, R. Waterman — 2 for 12 and A. Critchlow, 1 for 11.

Surrey in turn fell — 1 for 10, 2 for 11, 3 for 31, 4 for 37, 5 for 46, 6 for 46, 7 for 49, 8 for 54, 9 for 83, and a total

In Eternal Gratitude

It is self-evident that hardly any negotiated agreement in which the public interest is involved can possibly meet the approval of all those affected by the accord. In its simplest term, negotiation connotes the idea of giving and taking. And there will be those on both sides, taking the vagaries of human nature and conflicting opinions into account, who will indulge the conviction that on their side they have given too much and received too little, no matter how broad and apparently satisfactory has been the terms of accord.

That the Treaty of Mutual Understanding and Cooperation recently concluded between the Republic of Panama and the Government of the United States, revising the widely condemned Treaty of 1903 and complementing the later Accord negotiated in 1936 which was passed Wednesday by the National Assembly but with one dissenting vote falls into this category, is to be expected. Many of the deputies who voted in approval expressed reservations, and the negotiators and advisors themselves, whose outstanding ability and high sense of patriotism cannot be questioned, agreed that Panama's major aspirations have not been fulfilled, and some of her most serious grievances unadjusted.

But there is also general agreement and acceptance of the salient fact that on a whole the Republic has received great and substantial benefits from the new Accord of 1955. The way, it is emphasized, remains open for further negotiations when it is felt that the unsettled demands of the nation will be more amply rewarded. The Republic feels that its cause is just, and, it must have been prophetic insight that caused the late martyred President Jose Antonio Remon to utter his memorable phrase of two years ago that "Panama does not seek alms, nor millions, but justice".

The culmination of the Accord will come about when it is ratified by the United States, a process that may be somewhat deferred, since there are many problems of vital interest to that country which may be given precedence by its august legislature.

However, it is now for the public of Panama to take advantage of those major benefits which have been attained for the greater development and advancement of the nation and the wellbeing of all its inhabitants.

There is recourse for any group or groups which may feel that they have been placed at a disadvantage by the new accord. Proper representation and protest within the framework of the higher meaning of the new Treaty should bring about remedial action, since it cannot at all be entertained that neither the Republic of Panama nor the Government of the United States would knowingly use this agreement of almost sacred antecedents as an instrument for oppression and injustice to any particular segment of the population. It would nullify and make a mockery of the entire foundation on which the agreement has been instituted.

There is none who would be so low an ingrate as not to render homage to the memory of the late Chief Executive whose vision, energy and firmness brought this advanced state of affairs to a consummation. The grim tragedy is that his life was forfeited by the bullets of a vile assassin, just when his triumph and the triumph of the nation was about to be realized.

Great deeds outlive those who accomplish them. Panama's assured greatness will be made all the more secure if in this new era of national advancement is embraced the eternal gratitude of all its people to the memory of the rugged and estimable soldier, statesman and patriot, JOSE ANTONIO REMON.

The Passing Review

Social Security Fund Of Panama Explained

by George W. Westerman

The Social Security Fund (Caja de Seguro Social) of Panama was established by Law No. 23 of 1941 as an autonomous Government Agency. It was amended by Law 124 of 1943 and again by Decree-Law 14 of August 27, 1954.

Westerman

Thus, a system of Social Security is provided by law to cover sickness, maternity, disability, old age and death benefits. Old age pensions are payable to men when they reach the age of 60 and to women upon reaching 55 years of age, providing they comply with other provisions of the law.

In those categories in which Social Security payments are obligatory employers and employees each contribute 4 percent of wages of salaries paid, while self-employed workers may pay into the Fund at the rate of 5 percent of income or profits and, if otherwise qualified, receive the same general benefits.

Under the system wages and salaries include every payment of value or other recompense received from the owner (patrono) or any natural or juridical person in payment of services in accordance with

definitions established for salaries in Article 28 of Decree Law No. 38 of 1941. In effect this includes all payments to employees for services whether in money or in kind except profit-sharing distributions.

Social Security coverage is obligatory for all employees in the service of the state, provinces, municipalities, autonomous and semi-autonomous agencies and the decentralized public organizations, as well as all employees in the service of private persons or private enterprises.

Exemption from provisions of the Social Security Law are:

- 1—Men of 60 or women of 55 who are entering service covered by Social Security for the first time;
- 2—The husband or wife, parents or children under sixteen years of age of the owner who are working for him;
- 3—Occasional or part time workers in conformity with standards established by the Social Security Fund;
- 4—Domestic workers;
- 5—Persons contracted for period of no more than two months.

Social Security coverage is voluntary in the following:

- (a) Self-employed workers;
- (b) Persons not considered to fall under the obligatory provisions of Social

Security;

(c) The husband or wife and children of less than 16 years of age of persons obliged to be insured who meet conditions required under Family Security Regulations;

(d) Workers in Panamanian territory who are outside of its jurisdiction;

(e) Employees of diplomatic and consular missions accredited to this country;

(f) Employees of international organizations living in this country;

(g) Employees of persons or private enterprises who do not maintain legal residences in the districts where Social Security is mandatory;

As of December 1953 there were 52,414 employees covered by the Social Security system. This was broken down in the categories of "private" and "public" workers as under:

Private (Panama)	25,408
Private (Colon)	5,231
Public (by decree)	13,673
Public (by payroll)	4,992
Autonomous and semi-autonomous	3,110

In the districts of Panama and Colon the number of "patrons" reached the figure of 3,300 for Panama and 1,277 for Colon.

It is hoped that these explanations as to the workings of Panama Social Security system will prove satisfactory to our enquiring readers.

Drops & Turnovers

by Jack Jamleson

MADAME TERFREN LAILA, a 58-year-old Hungarian seeress who passed through Panama

from Caracas, Venezuela, in April 1954, must have seen darkly through her crystal ball, or was too cagey to tell of the dark, painful days or mourning that were ahead before a year had passed. She said she had predicted, among other things, the United States stock market crash of 1929, President FDR's reelection, Hitler's downfall and President Eisenhower's election long before he had ever become a candidate.

Jamleson

The good seeress who said she had made these predictions and lived to see them come true, was careful to tell newsmen that she was passing through Panama and other countries, studying the customs of the people and gathering material for a new book she planned to write. She was quick to add that she did not make a living from fortune telling but from writing.

True to her profession (and she had a heap of reputable newspaper clippings to prove her aptitude), she made some very favorable predictions about Panama. Well aware of the straws in the wind at the time, she predicted that before 1956 (next year), or as she said: "before President Jose Antonio Remon's term of office expires in 1956," there would be a brisk World War III which would be fought in a part of Europe and most of Asia in which Russia will be defeated and destroyed. The war, she said, will not affect the continent of America, being confined to Europe and Asia,

Because nobody wants war. It was something soothing to hear her say what we all wish: that the Americas will not be embroiled in any new war. The year 1956 is not so long off, and it is hoped that she fails here in our prophecy. Yet we are a bit apprehensive with war clouds agathering in Formosa and the United States' commitments to defend Chiang Kai Shek's stronghold.

But if this part of her predictions is fulfilled or come to pass, we have hope that, according to her forecast, a Panamanian chemist will discover a new and profitable process for preserving tropical fruits for export; and that two valuable metals which will be in high demand in the United States and Europe will be discovered in this country.

It was either that Madame Laila's crystal ball was somewhat hazy or that she preferred to say the encouraging things about countries and peoples she visited, as all clever seers do, when she could not, or refused to give a hint of the pain that was to befall the country

Hungarian Seeress Missed Out On Dark Days That Were Ahead

at the opening of the year 1955. Instead she said that it was "possible" (and all fortune-tellers dodge under that word "possible") that Col. Remon would be reelected to office for a second term. She then urged Panamanians to alert themselves for the constitutional change and provide for the necessary measures to reelect President Remon. As we now know, there is no need to change the Constitution.

Vaguely Madame Laila added to her predictions the satisfactory result of the US-RP Treaty revisions. That the negotiations have been satisfactorily concluded cannot be gainsaid. Panama, in an almost unanimous voice of the legislators has ratified it. We only await the disposition of the US Congress and implementation of the instrument to prove if the result is "satisfactory."

Seers always see the bright and never the dark side, it seems, as they tell the things one wishes to hear, perhaps laboring under the axiom that "thoughts are things" which can be waved into existence by ardently wishing them.

Re-Issue Of "Cedulas"

at a meeting recently headed by President Ricardo M. Arias.

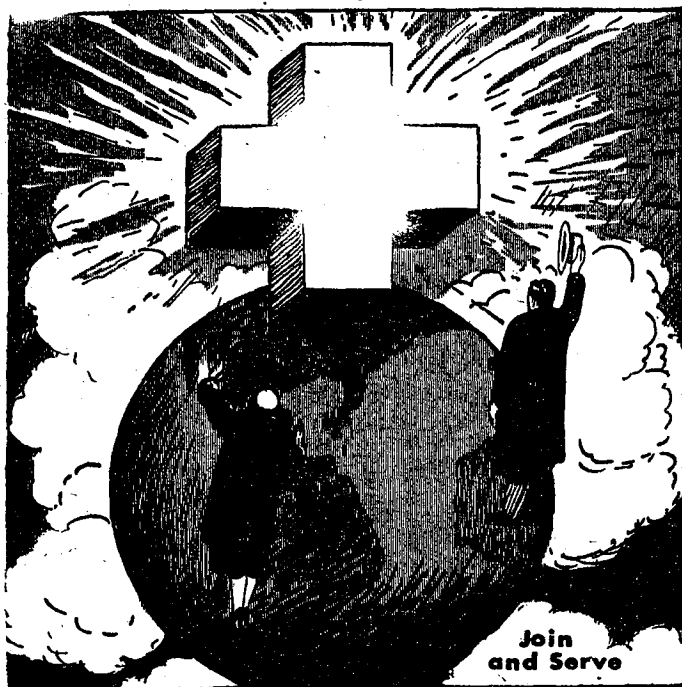

Col. Raul Arango, chief of the National Fire Department was charged by the late President Remon with making the necessary arrangements. Contact was made by Col. Arango on a visit to Chicago and details were later worked out on four visits here of the representative of the firm which is to handle the undertaking.

The Chicago representative is said to be at present on the Isthmus, his fifth visit, and

arrangements have been made for consultations with various official and civic groups to exchange opinions concerning the proposed change.

Many irregularities are said to have existed in the issuing of Panamanian cedula to persons of foreign birth; and this will be eliminated in the new system, which it is believed will be ready to go into effect before the holding of the next election period.

Details of the plan will be announced later, it was said.

Living....

(Continued from Page 1)

United Fruit Company's employees live.

It is a lamentable situation. Whenever anyone is sent by the government to visit over there, he should not remain at the Governor's House in Bocas del toro or Almirante. Neither should his visit be concentrated in the area where the whites live, similarly to those in the Canal Zone.

Discrimination over there is much worse than the Canal Zone, considering the way the unfortunate people are treated.

Do you know how much the laborers are paid by the United Fruit Company?—22, 25 and 28 cents an hour. There is a contract to carry 1000 heads of banana from the dock to the ship for \$0.28. I spoke to one of the men working there and he said he works all night for \$1.30 including Sundays and holidays. They earn overtime pay after eight hours work. It is an injustice.

I visited certain families who told me that no home is provided with electric current for ironing and the use of refrigerators. Only the Americans have these conveniences. A maid in one of the American homes said the lower floor of the home where she works has 47 lights.

There are no sanitary facilities. In Almirante, the toilet facilities are outside the houses. In "One Mile" not even that is provided. Most families have to do their necessities and dispose of them in the woods. Others deposit them in garbage cans.

When the people complain to the Labor Inspector the only satisfaction he gives is to tell them if they are not satisfied do what they feel like doing.

It was saddening to me to see the treatment given to the laborers. After all, they are also human. Please see what can be

done for these people. If what I have written does not sound true, you may send a commission to inspect and verify my statements.

Barbados Seeks Quota Of Jobs In England

LONDON.—The Hon. R. G. Mapp, minister of trade and industry, and Mr. A. Pickwood, commissioner of labor, both of Barbados, visited London recently on a three-week fact-finding tour regarding the conditions of immigrants from their country.

They paid visits to the Ministry of Labour and discussed the possibility of recruitment of nurses and other female workers.

It is said Barbados feels that the flow of immigrants from that country to Britain should be increased to compare with that from Jamaica because both Barbados and Jamaica have the same unemployment problems.

with a loss to them of payment for overtime worked.

Waiters who are carried on the regular payroll receive the sum of \$36.00 as vacation pay. Those in the category of "extras" draw only \$24.00 since they are figured on a 24-hour month compensated at \$1.00 per day.

As proof of the rash manner in which they are treated, it was claimed not long ago one waiter who pointed out the health hazard in "picking up papers from the floor while serving at tables," was summarily dismissed by the management.

The complainants told the Deputies that the Garden employs dust boys for that specific purpose, and it is not part of the occupation of waiters.

One waiter drew a fifteen day suspension because he confused an order, substituting "tomato juice" for "orange juice" as requested by a patron.

Kitchen helpers complained that during the carnival season they had to work on their usual "off-days," without being compensated according to law.

ther-in-law, Allan Thorpe. The two in-laws are not on speaking term. Mr. Thorpe, however, is a member of the society.

The plaintiff further stated that Mr. Thorpe collected over a \$1,000 as death grants from other lodges to which deceased was connected and that the Isthmian society was the only organization of which he was "nominee".

It is understood that the Company-Government has already been working on budget calculations for the fiscal year 1957, so as to be in a position to meet the conditions resulting from the application of certain provisions of the new treaty.

A few of these conditions are known to be: (a) denial of purchase privileges to all non-US citizens who do not reside on the Canal Zone as of January 1, 1957; (b) discontinuance of sales to commercial shipping; and (c) reimbursement procedure governing the Canal annuity payment to Panama which has been increased to \$1,930,000 from \$430,000.

The Deputies before whom these complaints were registered have promised to check closely into the matter to see that these public employees are not further "mistreated and denied their just due under the laws of the country," the Tribune was told.

Opening Presents From House Guests

As "house gifts" are a purely matter of volition on the part of guests, and are not really expected, the hostess does not open them ostentatiously if other guests, who have come empty-handed, are present.

She thanks the donor quietly, puts aside the gift, and later privately opens it.

She then thanks the giver in a way that makes him understand that she knows what she has been given, and appreciates his thoughtfulness.

In a party where one guest is from quite a distance, and the others are all local people who see the hostess constantly, it would, of course, be perfectly suitable for the out-of-town guest, who has come with a gift, to enjoy seeing the hostess open it in front of the others.

And certainly one cannot ask small children not to open the gifts guests bring.

Story With Power

Everybody knows the words "Minister of the Gospel", but not everybody stops to think what they mean. Literally, the title means "Servant of the Good News." The minister is a man with a story to tell. There are many words to describe a minister, but in Protestant churches the commonest, probably, is "Preacher." This is a Bible word too and it originally meant some one who announces something. The preacher is not a giver of advice, first of all, but a teller of news. The message of the church, if it is faithful to the ideal Christ intended, is first of all, whatever else it may be, first of all a story of what God has done for men.

STORY OF A LIFE

A crank-sided philosopher who did not much care for preachers once made the sarcastic remark that a preacher has a very simple job; all he does is to go to a man and say, "God has told me to tell you that you are a very wicked man. Ten dollars, please!" If that were all that preachers could say, it certainly would not be worth ten cents. Men need to be told that they are on the wrong road, certainly. But they know that, sometimes better than the preacher does. What the church is called on to preach—that is, to proclaim, to tell, to persuade men that it is true—is a story. First of all it is the story of a life, the life of Jesus Christ. The earliest Christian preaching of which we have any record told the story of Jesus. The four Gospels which we now have in writing got started as sermons. What we have before us in Matthew, Mark, Luke and John is what the earliest Christian

preachers—who, by the way, were all what we call "laymen"—told people in market-places, in private homes or in synagogues, wherever they could get a hearing—what they told about Jesus, who he was, what he did, what he said. Christian preaching that leaves out the story of Jesus is not really Christian. Preaching that concentrates on the death of Christ and says little about his life and teachings is not New Testament preaching. When the early church put the four Gospels—stories about Jesus—in the front of the New Testament, they knew what they were doing. What is in the front of the New Testament ought not to be out of sight in the church.

STORY OF A DEATH

More space is used up, in our written Gospels, telling the story of Jesus' last week, his trial and execution, than is used for any other week in his lifetime. Now that last week was to all appearances a tragedy, coming swiftly to a shameful end. It is not a "nice" story. But the church told it, and still tells it. It was not at all necessary to dwell on it, one might think. All men die; why not Jesus too? But the church was not content to say simply that Jesus died on such and such a day. There was much more to be said, and much of what we have in the Epistles of the New Testament is just more "preaching" only this time not simply telling the story but explaining what it means. The four gospels all say that Jesus died. The epistle, say, He died for our sins. The gospels tell us about a cross; the rest of the

DOTOGRAPH

Can you puzzle out the name of the nursery rhyme the artist had in mind when making this drawing? If not, the missing figure should give you a further clue. To complete it, start with a pencil at dot 1 and draw a continuous line from dot to dot until you reach 48. Where two numbers are beside a single dot, use the dot for both.

Afterward, color the drawing. **ANSWER:** "The Three Little Kittens Who Lost Their Mittens." **RIDDLES** To what number can you add a letter and make it three less? Six, which is spelled by prefixing the letter S to IX (9). Why is a theater always a place of sadness? The seats are usually in tiers.

Large Concourse At Aubert Rites

After the Ven. Archdeacon L. B. Shirley administered the last rite of the Anglican faith, the mortal remains of the late Mrs. Carmen Adassa McIntosh de Aubert were interred in the Corozal cemetery, Thursday February 17. Death came to the 33-year-old Panamanian matron at the Panama Hospital Sunday morning the 13th after five days illness. Of a jovial and affable disposition, "Dass" as she was familiarly known to many friends during her lifetime, was a devoted wife, a sincere co-worker and faithful friend. Up to the time of her death, she was an employee of long standing with the El Panama Hotel. Proof of the high esteem in which the late Mrs. Aubert was held by the community was evident by the many expressions of sorrow by the mourners who filed past the bier as it lay in state in the Corozal Chapel.

After the service the body was borne to the cemetery, the chief pall-bearers being her husband Prichard Aubert, Arthur George, Carlyle Clark, William Clark, Lorenzo Butcher and Eduardo Charles. At graveside the widower, Prichard Aubert, as a final tribute to his departed wife, sang "The Rosary", and as the body was lowered to recline in its final resting place, the Ven. Archdeacon recited the final oration.

Survivors are: John McIntosh, father; Mrs. Maud Dacres, mother; Prichard Aubert, widower; Eric, Errol, Clebert, sons; three brothers, a sister, a step-sister, a step-brother and several nieces and nephews.

Geo. Parris (16) and H. Mignott (9), also played defensively to assure the draw. Excelsior's bowling attack featured K. Griffith (1 for 29), M. Perch (4 for 13), and A. Campbell (4 for 39).

Mills C. C. proved that they are still in the running as they overwhelmed the ex-champions, Silver City, C. C. to gain undisputed position of second place in the Atlantic Cricket League. Bowlers L. Warren and J. Cole collaborated as Silver City was skittled out for 49 runs while H. Walker scored 20 runs not out, and C. TO EVERY CREATURE

A right church is never like a club. A club has nothing to say to people on the outside. Its members talk to one another, inside the club. But a church has something to say, a story to tell, a story to explain. It is the most important story in the world. You can believe other stories or not and it may make very little difference. But whether or not you believe the story the church has to tell, makes all the difference in the world with you, the difference between life and death. So the church was set out to tell this story of God to every creature in the world. So long as there is still one soul who has not heard it, or does not believe it, the work of the church is not yet done.

and by Christmas next you will probably feel happier and more settled than you have been for a long time. Meanwhile, it's little use being in a hurry; prepare to be patient, philosophical for a few months longer.

You need have no doubts about what lies ahead of you. Toward the end of 1955 you will get a chance to renew old ties and at the time to start out on a new way of life. Perhaps you go back to a district that you knew in the past or take up a similar type of job to that you held about eight years ago.

In either event, your income is likely to increase immediately. Certainly prosperity is likely to overtake you before you are a year older. This could mean a better job or alternatively a legacy. If you have any expectation of inheritance, then it will, probably come your way between November 1955 and January 1956. Responsibilities will be heaped upon your shoulders but you will be able to live up to what is demanded of you in about six months time. Changes will make for security later on, burdens will in some way lead to greater comfort and to a more settled way of life.

If you are a free agent and eligible for marriage, it looks as though you would settle down with an old friend this year. If already married then a house move is ahead of you or you revolutionize your present house and background. In the family circle older people matter more than the younger ones; one of the older generation will do you a very good turn towards Christmas next.

The attitude of this player in using constant "delaying tactics" in an attempt to stave off what appeared at that time to be certain defeat proved very disgusting.

The situation was worsened by the evident ignorance on the part of the cricketers in regard to certain laws governing the game.

The Insurancemen batted first and made a total of 159 runs for the loss of 9 wickets before declaring its innings closed, and the smokers made a score of 40 runs for 8 wickets when stumps were drawn.

Do You Suffer FROM A "Weak" Back?

Does sitting in a draft or in a damp, chilly room sometimes bring on an aching back? Many people say they get "cold" in the back—or in the kidneys—so easily. At such times it's good to know about the quick relief of Dr. Chase's Kidney-Liver Pills.

Remember, both kidneys and liver must filter out impurities from your bloodstream. So if you feel tired, worn-out, headachy—with painful joints and aching back—look to both your kidneys and liver. That's why Canadians have been relying on Dr. Chase's Kidney-Liver Pills for over half a century.

Give your system a chance to work properly. Always keep Dr. Chase's Kidney-Liver Pills handy—especially during damp chilly weather. The name "Dr. Chase" is your assurance.

Juvenile Lawbreakers To Be Visited In Homes By British Police

LONDON. — In the future children who break the law in Britain may be visited by policemen at their homes instead of being taken to court.

This method of dealing with juvenile offenders will be tried out in many parts of the country.

Specially trained men or women police will visit the homes of children who might normally be prosecuted. They will warn the children and talk to their parents. They may also visit schoolmasters or employers.

The idea had been experimented with in Liverpool, Lancashire, where in six years juvenile court cases were reduced by 23 per cent.

Now the British Home Office has asked all Chief Constables in the country to study the plan and, possibly, operate it in their respective districts.

Mining Co. To Expand Jamaica Alumina Industry

KINGSTON, Ja.—An Expansion Program aimed at bringing the investment of Alumina Jamaica Limited in the island to 16,000,000 pounds (\$44,800,000) and at increasing its present output of alumina to 438,000 tons annually is planned by the bauxite-mining company.

This was announced in Mandeville last week by Mr. Nathaniel V. Davis, president of Aluminium Limited, of Montreal, Canada, parent company of Alumina Jamaica Limited.

Mr. Davis came to Jamaica especially to meet Princess Margaret on her visit to the Kirkvine Works. Mr. Davis's announcement said in part:—

"Alumina Jamaica Limited will shortly undertake a further expansion of its Kirkvine Works near Mandeville at a cost of approximately 4,000,000 pounds.

"The present production capacity of 210,000 tons of alumina per annum will be increased to 274,000 tons per annum. Storage facilities at Port Esquivel and additions to the company's rolling stock for use on the Jamaica Government Railway will be included in the expansion program.

"Construction work on these projects is expected to take 18 months and utilize a labor force averaging approximately 700 men.

Haiti Has Greatest Number Per Sq. Mile In Western World

NEW YORK.—Haiti, with a population of 3,750,000 in an area of 11,000 square miles, is the most densely populated republic in the Western Hemisphere, the National Geographic Society says. It is also the only French-speaking nation in Latin America.

The Haitians occupy the western third of the island of Hispaniola. The rest of the island belongs to the Dominican Republic, whose people speak Spanish. Hispaniola is equally distant from Cuba and Puerto Rico. It is the only island in the world that is home to two sovereign states.

Anglican Synod In Barbados Condemns South Africa Racial Bar

BRIDGETOWN, Barbados.—The Anglican Synod at its annual session, this week condemned the policy of racial segregation in South Africa, as contrary to the fundamental concepts of the Christian

faith, and likely to lead to racial strife and bitterness.

The Synod resolved that it viewed the policy of apartheid with abhorrence, and sends its sympathy, prayers and greetings to the Christian brethren in South Africa, "who are striving to uphold the teaching of Our Lord in His Church."

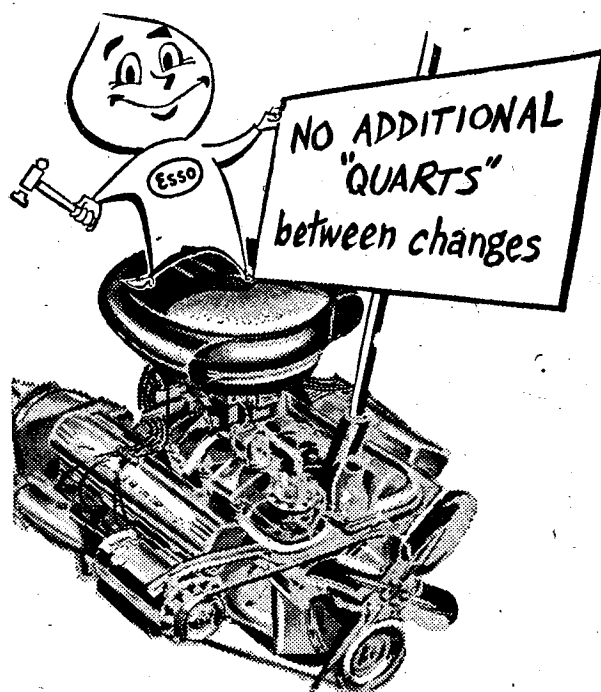

The motion was tabled by the Rev. C. A. Sayer, Principal of Codrington College. Bishop Mandeville in supporting the resolution suggested that the Synod approve that a special collection be made in the churches on Whit Sunday, and

be allocated to the Church in South Africa, "to aid them in their hour of trial."

In loving memory of a beloved father and husband

CHARLES GARRICK
who departed this life
March 10, 1953

We little thought that death was near,
When two years ago you suddenly left us,
The blow was great, the shock severe
And the parting without farewell.
We love you dearly but Jesus loves you best,
So sleep dear father and husband,
In your eternal rest.

Henrietta Garrick, widow;
Ruby, Connie, Sylvia, Ilda, Manassa, children; Mrs. Mabel Garrick and grandchildren.

In Loving Memory Of Our Beloved Father and Uncle
RICHARD S. CLAYTON
who died on March 8th, 1944.

It's eleven years since you have gone to rest, but still it looks like yesterday;
Out of sight, but not out of mind, for grief we feel where it is seldom seen;
Loving and kind in all his ways,
Upright and just to the end of his days.
Faithful and true in heart and mind.
A beautiful memory he has left behind.

Sadly missed by daughters, Clara Clayton, Mrs. Mary Clayton de Senior, Mrs. Ruby Clayton de Samuels; nieces, Nephew and grands.

Oh how much your parting grieves us, but though the mountains shake with the swelling thereof, God is in the midst, and shall help and that right early.
"We love thee well but Jesus loves thee best". Good night!

royal family under 25 years of age, must have the consent of the sovereign for marrying. Queen Elizabeth as head of the Anglican church which is opposed to the marriage of divorced persons, may not give formal consent, therefore it is being speculated that on the Princess's 25th birthday in August, she herself may make the choice. She is third in succession to the throne after Prince Charles and baby Princess Anne.

In the meanwhile the suggestion was advanced by the influential "Daily Express" that to commemorate her recent successful tour to the West Indies, Princess Margaret should be given the title of "Princess of the Caribbean Sea."

Describing her tour as a personal triumph, the article praised the flourishing of the "family feeling" evidenced by the royal tour and declares:

"Not every corner of the Empire could be the scene of such a happy visit as there are places where darkskinned folk are oppressed by intolerance."

"These folk will learn of the Princess's progress with wonderment."

To them Jamaica, Trinidad, Barbados and the Bahamas will sound like promised lands.

"For in these places people of all shades of skin and all national background live in harmony. Nobody is segregated. Nobody is refused admittance. Nobody has to sit apart."

"Nobody refuses to work with busmen or nurses just because the busman or the nurse happens to be coloured."

"Soon the scattered island of the West Indies are to be welded together in a new Federation. They will have a chance of becoming the Dominion of Tolerance."

"What a send-off it would be

if they could have their own Princess! And why not? Wales has long had a Prince.

"Let the visit of Princess Margaret be commemorated with the title of Princess of the Caribbean Sea."

"It would be a delightful gesture to the Princess and it would give pleasure and encouragement throughout the British West Indies".

Another article appeared in The Nation of Sunday 6th saying that the "U.S. Govt." to aid in Brown's Return. This, in my opinion, is a direct shame to our sporting people and our Government. Al Brown was a Panamanian. Fought all over the globe. The only world's champion produced in Panama, and there is no reason why any other Government should assist us to have his remains transferred from the country he was buried to his homeland.

Panama Al Brown, was buried in New York City by the Grand Old Man Fleischer and we should be glad and pay him some courtesy for what he did, and still doing, instead of trying to put a crown on the head of someone who knew nothing about this transaction. Cambra cannot do anything for the bringing of Brown's body to Panama, except he pays plenty. The Panama Commission completely lost its thinking ability when they picked him to attend to this job; and I will end up by saying that the transfer for the remains of our World's Champion, the deceased Alfonso Teófilo Brown, should be by an
