GREETINGS

Our warmest greetings are extended to you all with the hope that the friendships made here will ripen with the years and with future convention meetings. Medical truths know no national boundaries and it is our hope that you will learn from the eminent speakers who have travelled long distances to be with us to give us of their knowledge, and that they will benefit from their contacts with us. There is much to learn from them, from the scientific displays, from the commercial exhibits and from the moving pictures.

May you make many new friends and renew old friendships at the buffet dinner and at the sectional dinner round-table discussions. We are glad you came.

I. J. STRUMPF, M.D., FACS, FICS.
President

Please register at the registration desk on the first (1st) floor upon arrival. Registration booths will be open during the entire Convention and on Tuesday, March 23, 1954 from noon to 8 p.m. Also purchase your buffet and section dinner tickets at the registration booth at the time you register.

Subject: . . . Amoebiasis

DR. MARK HOEKENGA
Chief, Medical Service, La Lima Hospital, Uniited Fruit Co., La Lima, Honduras.
Subject: . . . Malaria

DR. EARNEST TIERKEL
USPHS, Chief of Veterinary Public Health, Atlanta, Ga.
Subject: . . . Transmission of Disease from Animal to Man.

DR. CARL JOHNSON
Pathologist, Board of Health Laboratory, Gorgas Hospital, Canal Zone.
Subject: . . . Chagas Disease.

5:00—7:00 Showing of films: "Nutritional Aspects of Tropical Disease"
"Surgical Anatomy of the Breast and Axila"
"Surgical Anatomy of the Female Perineum"

7:30 P.M. Sectional Dinners for the specialties. This will include round table discussions.

Surgical Sectional Dinner, Col. W. W. NICHOL, Chairman. The subjects to be discussed by the three guest speakers will be: (1) Direct Surgery for Arteriosclerosis (2) Burns (3) Peptic Ulcer.

Location: Terrace.

The Gu-Gyn sectional dinner, Dr. I. J. STRUMPF, Chairman. The subjects of joint interest to urologists and gynecologists will be "Ureteral Injuries and their treatment", "Vesico-vaginal fistulae". The papers will be presented by DR. ALEJANDRO PEREZ-VENERO.

Location: Terrace.

The Ophthalmology sectional dinner, DR. BENJAMIN BOYD, Chairman and principal speaker. Subject: Glaucoma Secondary to Uveitis.

Location: Terrace.

The Medical sectional dinner, DR. CARL JOHNSON, Chairman. This will be an alumni dinner and get together.

Location: Terrace.

The Dental sectional dinner, DR. LEWIS E. FONTAINE, Chairman. The address will be given by Capt. FRANK M. KYES on the subject of the Pitfalls in Full Denture Construction.

Location: South Patio.

The Nursing sectional dinner, Miss CATHERINE JACKELEN, Chairman, will be held in the North Patio and will be a general get-together of the nurses and their guests.

ABOUT OUR SPEAKERS

DR. HERBERT C. CLARK, Director of the Gorgas Memorial Laboratory of Tropical Research is in need of no introduction to this audience. He has conducted research and investigation in the tropics for the past 44 years. He is a member of many noted scientific societies including the American Association of Tropical Medicine, The American Association of Pathologists and Bacteriologists, National Malaria Society, American Society of Parasitologists, Association of Military Surgeons. He is certified by the American Board of Pathology and the American Board of Preventive Medicine. He is the author of many research monographs.

DR. HAROLD W. BROWN is Professor of Parasitology at Columbia University New York and is Director of the School of Public Health in the same institution. He is a member of the American Public Health Association American Society of Tropical Medicine, and the American Society of Parasitologists. He is also certified by the American Board of Preventive Medicine.

DR. BEN KEAN is assistant Professor of Tropical Medicine at Cornell University, New York, and is Parasitologist at New York Hospital. He is a Fellow of the Royal Society of Tropical Medicine, The American Society of Tropical Medicine, and the College of American Pathologists He has been a past president of the Medical Association of the Isthmian Canal Zone and is quite at home among us.

DR. MARK HOEKENGA is chief of the Medical Service of the La Lima Hospital, La Lima, Honduras, under the control of the United Fruit Company. He has done a considerable amount of research on malaria and other diseases of the tropics.

DR. E. I. SALISBURY is the chief of the Medical Staff of the United Fruit Company and director of the company's far flung medical interests. He is likewise no stranger among us having devoted almost his entire professional life-time to the study of diseases peculiar to the tropics.

DR. CARL JOHNSON, is pathologist at Gorgas Hospital. He is immediat past president of the Medical Society of the Isthmian Canal Zone and has a degree in Philosophy in Medicine in addition to his medical degree He has done considerable work in parasitology, while assistant director of Gorgas Memorial Laboratory of Tropical and Preventive Medicine.

DR. EARNEST TIERKEL is Director of National Rabies Control Activities Communicable Disease Center, Public Health Service, Atlanta, Georgia He is also consultant to the World Health Organization and a member of the World Health Organization Expert Committee on Rabies. He is also an authority on Viral and Rickettsial diseases.

DENTAL SECTION

The Dental Section of the Inter-American Medical Convention is a joint undertaking of the two prominent Dental Societies. The Panama-Canal Zone Dental Society under the present leadership of the following officers: President Kenneth M. Broesamle, Capt. USN; Vice-president Lewis E. Fontaine, DDS; Secretary-Treasurer Alan L. Teitel, Lt. Cdr. USNR, and the Asociación Odontológica Panameña, whose officers are President Dr. Ramón M. Valdés, Vice-President Dr. Reuben Arcia, Minutes and Corresponding Secretary Dr. Jaime Díaz-G and Treasurer Dr. Leonidas Pinilla. These two active societies are presenting the following program:

SOUTH PATIO THURSDAY MARCH 25, 1954

3—5 P.M.

DENTAL TABLE CLINICS

1. Captain W. W. Plummer, Lt. K. J. Bernhard, Lt. R. Neumann, Albrook Air Force Base.
   Subject: "Observation and evaluation of three resin materials" Models, photographs, and demonstrations will be employed to present the varied use of acrylic resins in the restorative phase of dentistry. Data collected from the USAF School of Aviation Medicine will be shown.

2. Commander E. N. Garner, D.C., USN., Naval Station, Coco Solo
   Subject: Compound reinforced matrix for amalgam restoration. The use of modeling compound in reinforcing matrix bands for proximal surfaces, including the distal of cuspids, demonstrated on models.

3. Captain K. M. Broesamle, DC., USN., Naval Station, Rodman
   Subject: Some fundamentals of Airbrasive. The manipulation of the Airbrasive stream and its cutting action on stone models and extracted teeth will be demonstrated with Airdent Unit.

4. Dr. W. F. French, Dr. J. R. Morales, Jr., Colon Clinic
   Subject: Irreversible colloid technique for bridge construction. Steps in the technique using colloid will be shown on models.

5. Lt. Cdr. A. L. Teitel, DC, USNR, Naval Station, Rodman
   Subject: Dual impression technique for the construction of distal extension partial dentures. Models will be employed to demonstrate the chronological steps and advantages of this technique.

Dr. Alfredo Berguido, Asociación Odontológica Panameña
   Subject: Preparation of wax patterns to diminish pitfalls in inlay casting with models.

Greetings and a most sincere welcome to all of the nurses attending the Inter American Medical Convention. Through our enthusiastic participation we will not only derive benefit but will also convey our appreciation to the hard working committees who have made this convention possible.

TOURS AND ENTERTAINMENT

Panama and the Canal Zone offer to the visitor in a small area almost unequalled facilities for entertainment, sports and sight-seeing. Here we have unrivalled weather, mountains, seashore, bazaars, golf courses, unparallelled fishing facilities, everything the tourist could wish for including the unique Panama Canal. The Tivoli Tourist Agency or the tourist representative at El Panama Hotel will arrange short or long range tours throughout the city or the Zone, to the Interior, to the Darien country to visit the Cholo Indians or the San Blas Islands to see the San Blas Indians at their homes. Fishing trips to the Perlas Islands or nearby fishing around Taboga or its neighboring islands may be arranged through the same sources. Taboga, the original home of the Hawaiian pineapple is a quaint and picturesque island just across the Bay, and well worthy of a days trip. For those whose interests run to golf, the Panama Golf Course, the scene of the recent Panama Open won by Sam Snead is open to visitors at the convention. Clubs will be provided for those who wish to play through the courtesy of the Club Directors and Mr. Annibal Macaroon, the club professional. Courtesy chits may be secured by application at the Registration Desk. Those who are guests at El Panama Hotel will have the use of their lovely pool.

★

THE MOVING PICTURE PROGRAM

The moving picture program has been so arranged that it would not interfere with the convention speakers nor detract from the scientific or commercial exhibits. The scheduled program follows:

WEDNESDAY, MARCH 24

11:30 a.m.	*"Allergy"*
5:00 p.m.	*"Urinary Infections"*

THURSDAY, MARCH 25

8:15 a.m.	*"Surgical Anatomy of the Male Perineum"*
11:00 a.m.	*"Coarctation of the Aorta"*
11:30 p.m.	*"The Male Sex Hormone"*
5:00 p.m.	*"Nutritional Aspects of Tropical Disease"*
	"Surgical Anatomy of the Breast and Axilla"
	"Surgical Anatomy of the Female Perineum"

FRIDAY, MARCH 26

8:00 a.m.	*"Aseptic Operating Room Technique"*
	"Terminal Sterilization following Septic Cases"
2—4:30 p.m.	*"Shock"*
	"Glaucoma—The General Practitioner's standpoint"

SCIENTIFIC EXHIBITS

TREATMENT OF BURNS

COL. W. H. AMSPACHER. Sponsored by COL. W. W. NICHOL, GORGAS HOSPITAL

The exhibit demonstrates the early local and systemic treatment of burns with emphasis on electrolyte changes. Photographs of grafting techniques in the later local care, as well as complications are included. (Bella Vista Room)

INSTITUTE OF INTER-AMERICAN AFFAIRS

DR. JAMES G. TOWNSEND

The exhibit consists of several panels, each panel depicting a different phase of work done by the Institute in the Republic of Panama. Many photographs taken of their work in the interior are included. (First Floor)

CANCER OF THE LUNG

American Cancer Society. Sponsored by the Canal Zone Cancer Society

The booth depicts the incidence, diagnosis and types of therapy in bronchogenic carcinoma. (First Floor)

FIFTY YEARS OF MEDICAL ACTIVITY ON THE ISTHMUS

Medical Library — Gorgas Hospital

VIRGINIA STICH, LIBRARIAN and RICHARD MINTON, M.D.

The exhibit consists of a historical review of the past fifty years. Pictures, reprints and old equipment are included, as well as a replica of one of the buildings of the original Ancon Hospital. A complete bibliography of all published material from the Canal Zone is present for distribution. (Bella Vista Room)

UNITED STATES AIR FORCE

COL. R. FIXOTT

The exhibit demonstrates some of the work done by the Medical Department in the present day Air Force. The equipment used is present and anyone wishing to try on a jet pilot uniform can do so. (First Floor)

ELECTROENCEPHALOGRAPHY IN KOREA

Bureau of Medicine and Surgery.

Sponsored by Capt. R. K. DUSINBERRE, USN MC, District Medical Officer

The exhibit has photographs and tracings showing the nature of early encephalography in the management of war time head injuries. (Bella Vista Room)

DETECTION OF RADIO ACTIVITY

CAPT. R. K. DUSINBERRE, USN M.C., District Medical Officer

The exhibit demonstrates the equipment used in the detection of radioactivity together with photographs demonstrating their use. There will be equipment and test material available for individual demonstrations. (Bella Vista Room)

CANAL ZONE CHAPTER OF NATIONAL SANITARIAN ASSOCIATION

The exhibit shows malaria control in the Canal Zone in the past fifty years. A simulated laboratory will be set up showing the sanitary engineering equipment. (Bella Vista Room)

SCIENTIFIC EXHIBITS

UNITED STATES PUBLIC HEALTH SERVICE

DR. WALTER NELSON

The exhibit consists of photographs covering the new clinic center with examples of the type of research done in the seven institutes which comprise the National Institute of Health. There will be illustrated literature available. (First Floor)

TRENDS IN GYNECOLOGICAL SURGERY

OB — GYN Service — Gorgas Hospital

MARY HINSON, M.D. AND B. V. PERALTA, M.D.

The exhibit consists of charts and tables demonstrating the changing nature of indications for gynecological surgery. Uterine suspension and total versus subtotal hysterectomy are covered. (First Floor)

THE KIDNEY IN HYPERTENSION

Medical Service — Gorgas Hospital

JUAN CORREA JR., M.D., JACK BROKKEN, M.D, and RICHARD MINTON, M.D.

The exhibit gives the results of autopsy studies from the Board of Health Laboratory pointing out that pyelo-nephritis is the most common renal cause of hypertension in the Canal Zone. (First Floor)

AMERICAN TRYPANOSOMIASIS

Board of Health Laboratory

CARL M. JOHNSON, M.D.

The exhibit shows the vector of trypanosomiasis in its habitat, the clinical features, methods of diagnosis and pathology of the disease. The experience in Panama with the disease is covered. (Bella Vista Room)

AMYLOIDOSIS

Board of Health Laboratory

F. BERTOLI, M.D. and R. MINTON, M.D.

The exhibit demonstrates the findings in all cases of amyloidosis autopsied between 1904 and 1954. The incidence, distribution and pathology are shown. The similarity of the primary and secondary variety is pointed out. (Bella Vista Room)

SURGERY OF CANCER OF THE HEAD AND NECK

Surgical Service — Gorgas Hospital

E. P. SHIROKOV, M.D. and R. ALVAREZ, M.D.

The indications and the results of radical surgery of head and neck carcinoma are graphically represented. There will be daily showing of Kodachrome slides demonstrating the technique of this type of surgery. These slides will also be shown on request. (First Floor)

MALARIA

Armed Forces Institute of Pathology — Sponsored by

COL. G. E. LEONE, CHIEF SUEGEON USAR CARIB.

The exhibit covers all phases of malaria including the parasite, transmission, vector, symptoms and treatment. (Bella Vista Room)

COMMERCIAL EXHIBITS

The commercial exhibits are located in the salons on the first floor. Representatives of the exhibiting companies will be present to distribute literature and samples to visitors and demonstrate their exhibits. It is urged upon our visitors that they visit the demonstration booths often. Booths are open from 8 a.m. to 6 p.m.

DOCTORS WIVES' ACTIVITIES

The Doctors' Wives Clubs of Panama and the Canal Zone have joined forces to entertain the wives of visiting speakers and delegates to the Inter American Medical Convention.

Members of the Doctors' Wives Club will be on hand to greet arrivals the morning of Wednesday, March 24. At 12:30 Wednesday, club members will escort visitors to the luncheon at the Union Club, which is being held in their honor. Thursday evening, at 10 p.m. March 25, the clubs will give a fashion show in the north patio of the Hotel El Panama in honor of the visiting wives, and on Friday morning, March 26, a delegation from both clubs will escort the visitors on a shopping tour through Panama or a visit to Panamanian homes and gardens.

ABOUT THE DOCTORS' WIVES CLUBS

Both clubs have been formed primarily to enable doctors' wives to become acquainted with each other and to ease the loneliness of newcomers to the area. However, now, both groups do admirable work as auxiliaries to hospitals on either side of the border.

In the Canal Zone, the Doctors' Wives maintain a Pediatric playroom for young patients and members take turns in supervising the play there each day. Another committee gathers fresh flowers and places them in the wards each week and a third shows movies regularly to the patients of the Chest Service. In Panama, the Doctors' Wives Club has undertaken a similar program in regard to Santo Tomas Hospital.

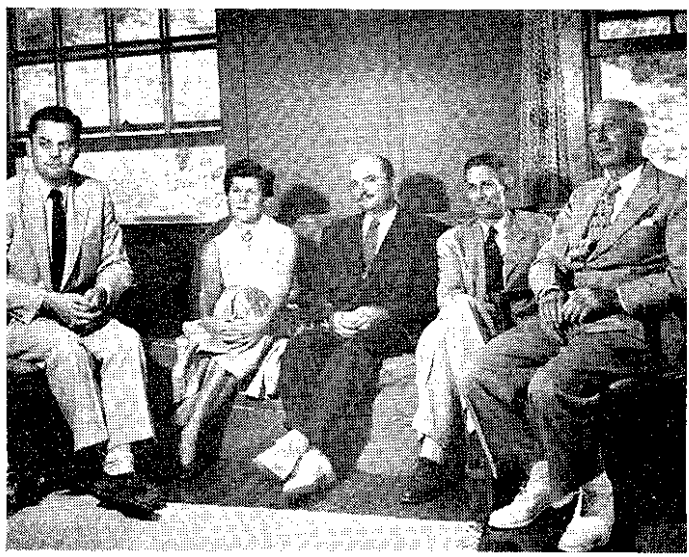
ACKNOWLEDGEMENTS

The Society through its officers finds itself greatly in debt to many who have helped us to carry the load of insuring the success of this convention. Please forgive us if through inadvertence we omitted some who have contributed and whose services are not publicly acknowledged.

To El Panama Hotel and especially to Tony DiScala for his cooperation and patience during the many times we must have exasperated him. To Tivoli Tours, the USIS and the Institute of Inter-American Affairs for their assistance in publicity and to Roberto Azcárraga for his many efforts. To PAA for its help in bringing our films and our guests to Panama and to C. C. Soper of Eastman Kodak Tropical Research Laboratory for his help with the scientific displays. To all the committees who have responded to our calls, we thank them all. Last but not least, we thank the men who have translated the papers for us and to those who typed and mimeographed them, and to the staff of the Gorgas Memorial Laboratory for use of the photomicrographic equipment.

Executive Committee



Left to Right: Dr. Richard Minton, Miss Catherine Jackelen, Dr. W. T. Bailey, Dr. Carl Johnson and Dr. I. J. Strumpf.
